AGJUNCTION INC.**INFORMATION CIRCULAR - PROXY STATEMENT
April 19, 2018****Annual General and Special Meeting of Shareholders
to be held on May 23, 2018****PART I - INTRODUCTION**

This Information Circular - Proxy Statement is furnished in connection with the solicitation of proxies by the management of AgJunction Inc. (the "**Corporation**" or "**AgJunction**") for use at the Annual General and Special Meeting of Shareholders of the Corporation (the "**Meeting**") to be held at the offices of AgJunction at 9150 East Del Camino Drive, Suite 115, Scottsdale, Arizona, USA on May 23, 2018 at 8:00 a.m. (Mountain Standard Time) and at any adjournment or postponement thereof, and on every ballot that may take place in consequence thereof, for the purposes set forth in the Notice.

Unless otherwise stated, the information contained in this Information Circular is given as at April 19, 2018.

No person has been authorized by AgJunction to give any information or make any representations in connection with the matters herein described other than those contained in this Information Circular and, if given or made, any such information or representation must not be relied upon as having been authorized by AgJunction.

PART II - GENERAL PROXY INFORMATION**Solicitation of Proxies**

The Board of Directors has fixed the record date for the Meeting at the close of business on April 19, 2018 (the "**Record Date**"). Only holders of Common Shares of record as at that date are entitled to notice of the Meeting. Shareholders of record will be entitled to vote those Common Shares included in the list of shareholders entitled to vote at the Meeting prepared as at the Record Date, unless any such shareholder transfers Common Shares after the Record Date and the transferee of those Common Shares, having produced properly endorsed certificates evidencing such Common Shares or having otherwise established that he or she owns such Common Shares, demands, not later than ten (10) days before the Meeting, that the transferee's name be included in the list of shareholders entitled to vote at the Meeting, in which case such transferee shall be entitled to vote such Common Shares at the Meeting.

The information set forth below generally applies to registered holders of Common Shares (i.e., if your Common Shares are registered in your name). If you are a Beneficial Holder of Common Shares (i.e. if your Common Shares are held through a broker, financial institution or other nominee), please see "*Advice to Beneficial Holders of Securities*" in this Information Circular.

Appointment of Proxies

A registered shareholder may attend the Meeting in person or may be represented by proxy. Shareholders who are unable to attend the Meeting or any adjournment or postponement thereof in person are requested to date, sign and return the enclosed Instrument of Proxy for use at the Meeting or any adjournment or postponement thereof. To be valid, completed Instruments of Proxy must be completed, dated, signed and deposited with AgJunction's transfer agent, Computershare Trust Company of Canada: (a) by mail, using the enclosed return envelope or one addressed to Computershare Trust Company of Canada, Proxy Department, 8th Floor, 100 University Avenue, Toronto, Ontario M5J 2Y1; (b) by hand delivery to Computershare Trust Company of Canada, 8th Floor, 100 University Avenue, Toronto, Ontario M5J 2Y1; (c) by telephone to 1-866-732-8683 for North American callers or to 1-312-588-4290 for callers outside North America; or (d) through the internet at www.investorvote.com, not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time set for the holding of the Meeting or any adjournment or postponement thereof. If you vote through the internet you will require your 15-digit control number found on the enclosed Instrument of Proxy.

The instrument appointing a proxy shall be in writing and must be executed by the shareholder or his or her attorney authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as executors, administrators, trustees, etc. should so indicate and give their full title as such.

The persons named in the enclosed Instrument of Proxy are officers and/or Directors of the Corporation. Each shareholder has the right to appoint a person or persons, who need not be shareholders of the Corporation, other than the persons designated in the Instrument of Proxy furnished by the Corporation, to attend and act on such shareholder's behalf at the Meeting. To exercise such right, the names of management's nominees may be crossed out and the name(s) of the shareholder's nominee(s) legibly printed in the blank space provided, or another appropriate instrument of proxy may be submitted.

Revocability of Proxy

In addition to revocation in any other manner permitted by law, a shareholder may revoke a proxy: (a) by instrument in writing executed by the shareholder or such shareholder's attorney authorized in writing or if the shareholder is a corporation, under its corporate seal or by an officer or attorney thereof, duly authorized, and deposited either with Computershare Trust Company of Canada, acting as scrutineer, at the office of Computershare Trust Company of Canada designated in the Notice and this Information Circular not later than 5:00 p.m. (Calgary time) on the Business Day preceding the day of the Meeting (or any adjournment or postponement thereof) or with the Chairman on the day of the Meeting (or any adjournment or postponement thereof); or (b) by a duly executed and deposited proxy bearing a later date or time than the date or time of the proxy being revoked.

It should be noted that the participation in person by a shareholder in a vote by ballot at the Meeting will automatically revoke any proxy which has been previously given by the shareholder in respect of business covered by that vote.

Persons Making the Solicitation

This solicitation is made on behalf of the management of the Corporation. The costs incurred in the preparation and mailing of the Instrument of Proxy, the Notice and this Information Circular will be borne by the Corporation. In addition to the use of mail, Instruments of Proxy may be solicited by personal interviews, telephone or other means of communication by Directors, officers and employees of the Corporation, none of whom will be specifically remunerated therefor.

Exercise of Discretion

Common Shares represented by a duly completed and properly signed Instrument of Proxy will be voted in accordance with the instructions specified therein. **Where no choice is specified, such Common Shares will be voted in favour of the matters described in the Notice. The persons appointed under the Instrument of Proxy furnished by the Corporation are conferred discretionary authority with respect to amendments or variations of those matters specified in the Instrument of Proxy and with respect to any other matters which may properly be brought before the Meeting or any adjournment or postponement thereof. As of the date hereof, management of AgJunction knows of no amendments, variations or other matters to come before the Meeting; however, if any other matter properly comes before the Meeting, the enclosed Instrument of Proxy will be voted on such matter in accordance with the best judgment of the person(s) voting the proxies.**

Advice to Beneficial Holders of Securities

The information set forth in this section is of significant importance to many shareholders of AgJunction, as a substantial number of the shareholders of AgJunction do not hold Common Shares in their own name but instead hold their Common Shares through brokers, financial institutions or other nominees. Shareholders who do not hold their Common Shares in their own name (referred to in this Information Circular as "**Beneficial Shareholders**") should note that only Instruments of Proxy deposited by shareholders whose names appear on the applicable registrar and transfer agent as the registered holders of Common Shares can be recognized and acted upon at the Meeting. If

Common Shares are listed in an account statement provided to a shareholder by a broker, then, in almost all cases those Common Shares will not be registered in the shareholder's name on the records of AgJunction. Such Common Shares will more likely be registered under the name of the shareholder's broker or an agent of the broker. In Canada, the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominee for many Canadian brokerage firms). Common Shares held by brokers or their nominees can only be voted (for, withheld or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, brokers/nominees are prohibited from voting Common Shares for their clients. **Beneficial Shareholders should therefore ensure that instructions regarding the voting of their Common Shares are properly communicated to the appropriate person or that the Common Shares are duly registered in their name well in advance of the Meeting.**

The Directors and officers of AgJunction do not know for whose benefit the Common Shares registered in the name of CDS & Co. are held.

Applicable regulatory policies require intermediaries/brokers to seek voting instructions from Beneficial Shareholders in advance of the Meeting. Every intermediary/broker has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Shareholder by its broker is identical to the form of proxy provided to registered shareholders. However, its purpose is limited to instructing the registered shareholders on how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("**Broadridge**"). Broadridge typically mails a scannable Voting Instruction Form in lieu of the form of proxy. The Beneficial Shareholder is requested to complete and return the Voting Instruction Form by mail or facsimile. Alternatively, the Beneficial Shareholder can call a toll-free telephone number or access the internet to vote the Common Shares held by the Beneficial Shareholder. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. **A Beneficial Shareholder receiving a form of proxy or Voting Instruction Form from their broker or other intermediary (or an agent or nominee of such broker or other intermediary) cannot use that form to vote Common Shares directly at the Meeting. Voting instructions must be communicated to the broker, intermediary, agent or nominee (in accordance with the instructions provided by it or on its behalf) well in advance of the Meeting in order to have the Common Shares to which such instructions relate voted at the Meeting.**

If you are a Beneficial Holder and wish to vote in person at the Meeting, please contact your broker or agent well in advance of the Meeting to determine how you can do so.

Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of the shareholder's broker or other intermediary, a Beneficial Shareholder may attend at the Meeting as a proxyholder and vote their Common Shares in that capacity. If a Beneficial Shareholder wishes to attend the Meeting and vote their Common Shares, it must do so as proxyholder for the registered holder of the Common Shares. To do this, a Beneficial Shareholder should enter his or her name in the blank space on the applicable form of proxy or voting instruction form provided to him or her and return the document to his or her broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting.

The Corporation is not using "notice-and-access" to send its proxy-related materials to shareholders, and paper copies of such materials will be sent to all shareholders. The Corporation will be sending proxy-related materials directly to non-objecting Beneficial Shareholders and the Corporation intends to pay for the costs of an intermediary to deliver to objecting Beneficial Shareholders the proxy-related materials.

These securityholder materials are being sent to both registered and non-registered owners of Common Shares. If you are a non-registered owner, and the Corporation or its agent has sent these materials directly to you, your name and address and information about your holdings of Common Shares, have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf.

PART III - MATTERS TO BE ACTED UPON AT THE MEETING

Financial Statements and Auditors' Report

At the Meeting, the financial statements of the Corporation for the year ended December 31, 2017 and the Auditors' Report thereon will be placed before shareholders, but no vote by the shareholders with respect thereto is required or proposed to be taken.

Fix the Number of Directors to be Elected at the Meeting

The Articles of the Corporation specify that the Board of Directors shall consist of a minimum of three and a maximum of eleven Directors. At the Meeting, it is proposed that the number of Directors of the Corporation to be elected at the Meeting be set at six (6), as may be adjusted between shareholders' meetings by way of resolution of the Board. Accordingly, unless otherwise directed, it is the intention of management of the Corporation to vote Instruments of Proxy in the accompanying form in favour of fixing the number of Directors of the Corporation to be elected at the Meeting at six (6).

Appointment of Directors

Majority Voting for Directors

The Board has adopted a policy stipulating that if the "WITHHOLD" votes in respect of the election of a Director nominee at the Meeting represent more than the "FOR" votes, the nominee will immediately submit his or her resignation, for the Board's consideration. The Board will consider such resignation within 90 days of the Meeting and will accept the nominee's resignation absent exceptional circumstances, having regard to all relevant matters. The Board's decision to accept or reject the resignation will be disclosed to the public by press release promptly after such decision has been made and a copy of such news release will be provided to the TSX. If the Board determines not to accept the resignation, the news release will fully state the reasons for that determination. The nominee will not participate in any Board deliberations on the resignation. The policy does not apply in circumstances involving contested Director elections.

Advance Notice By-law

The Corporation's Advance Notice By-Law (the "**By-law**"), which was ratified by shareholders at the Corporation's annual general and special meeting of shareholders held in 2016, contains advance notice provisions, which provide shareholders, the Board and management of the Corporation with a clear framework for nominating directors to help ensure orderly business at shareholder meetings by effectively preventing a shareholder from putting forth director nominations from the floor of a shareholder meeting without prior notice. Among other things, the By-law fixes a deadline by which shareholders must submit notice of director nominations to the Corporation prior to any annual or special meeting of shareholders. It also specifies the information that a nominating shareholder must include in the notice to the Corporation regarding each director nominee and the nominating shareholder for the notice to be in proper written form in order for any director nominee to be eligible for nomination and election at any annual or special meeting of shareholders of the Corporation. These requirements are intended to provide all shareholders with the opportunity to evaluate and review the proposed candidates and vote on an informed and timely manner regarding such nominees. The By-law does not affect nominations made pursuant to a "proposal" made in accordance with the *Business Corporations Act* (Alberta) ("**ABCA**") or a requisition of a meeting of shareholders made pursuant to the ABCA. As of the date of this Information Circular, the Corporation has not received any nominations pursuant to the advance notice provisions contained in the By-law.

Election of Directors

At the Meeting, shareholders will be asked to vote "FOR" or "WITHHOLD" on the proposed Directors set forth below to hold office until the next annual meeting or until their successors are elected or appointed.

Unless otherwise directed, it is the intention of management to vote Instruments of Proxy in the accompanying form in favour of electing as Directors the six (6) nominees hereinafter set forth:

- (b) was subject to an event that occurred while the proposed Director was acting in such capacity which resulted, after the proposed Director ceased to be a director, chief financial officer or chief executive officer, in the company being the subject of a cease trade or similar order, or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days.

In addition, other than as set forth below, no proposed director is as at the date hereof, or has been, within 10 years of the date hereof:

- (a) a director or executive officer of any company, including the Corporation, that while the proposed Director was acting in that capacity or within a year of that person ceasing to act in that capacity made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold its assets; or
- (b) become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold the assets of the proposed Director.

Mr. Vaughn acted as chief executive officer and a director of Soil and Topography Information, Inc. ("**STI**"), a Delaware corporation which was incorporated on October 19, 2010. STI entered into a security agreement dated February 10, 2010 with Pivotal Investment Partners I, LLP ("**Pivotal**"). The security agreement secured a loan agreement between STI and Pivotal and a secured convertible promissory note in the principal amount of \$250,000. STI was formally dissolved on October 27, 2013, following a management approved assignment of assets in lieu of foreclosure in favor of Pivotal, through its assignee, Soil Data, LLC.

Mr. Ladd acted as chief executive officer and a director of Brilliant Telecommunications, Inc. ("**Brilliant**"). On February 18, 2011, Brilliant reached an agreement regarding the sale of substantially all of its assets to Juniper Networks. Such sale was conducted via an assignment for the benefit of creditors process under the laws of the State of California. As part of this process, all of Brilliant's assets were transferred to a trustee who then distributed the proceeds of the sale. Mr. Ladd resigned from his positions with Brilliant shortly after the agreement with Juniper Networks was reached. On or about August 9, 2011, one of Brilliant's former customers filed a lawsuit against Brilliant and Juniper Networks alleging breach of contract and unfair business practice. On or about September 28, 2011, a default judgment was entered by the court against Brilliant. No director or executive officer of Brilliant was ever named in such law suit and Mr. Ladd had no involvement nor any liability in connection with such law suit or any other proceeding.

Further, no proposed Director of the Corporation has been subject to: (i) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or (ii) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable securityholder in deciding whether to vote for a proposed Director.

Approval of Unallocated Options

Section 613(a) of the TSX Company Manual provides that every three (3) years after the institution of a security based compensation arrangement all unallocated rights, options or other entitlements under such arrangement which does not have a fixed maximum number of securities issuable must be approved by a majority of the issuer's directors and by the issuer's security holders. At the annual general and special meeting of the Corporation's shareholders held on September 30, 2015 the shareholders approved the grant of unallocated Options under the Share Option Plan until September 30, 2018.

As the Corporation's Share Option Plan is considered to be a security based compensation arrangement and as the maximum number of Common Shares issuable pursuant to the Share Option Plan is not a fixed number and instead is equal to 13% of the outstanding Common Shares, approval will be sought at the Meeting to approve the grant of unallocated Options under the Share Option Plan. When Options have been granted pursuant to the Share Option Plan, Common Shares that are reserved for issuance under outstanding Options are referred to as allocated Options. We have additional Common Shares that may be issued under the Share Option Plan, but as they are not subject to current Option grants, they are referred to as unallocated Options.

If approval is obtained at the Meeting, the Corporation will not be required to seek further approval of the grant of unallocated Options under the Share Option Plan until May 23, 2021. If approval is not obtained at the Meeting, Options which have not been allocated as of May 23, 2018 and Options which are outstanding as of May 23, 2018 and which are subsequently cancelled, terminated or exercised will not be available for a new grant of Options under the Share Option Plan. Previously allocated Options will continue to be unaffected by the approval or disapproval of the resolution. In addition, if approval is not obtained, the Board will consider other long-term incentives for its Directors, officers and employees, including, but not limited to, cash payments to compensate for the Share Option Plan no longer being available for new grants of Options.

As at the Record Date, the maximum number of Common Shares that may be issued under the Share Option Plan and all other securities based compensation arrangements, was 15,518,933, representing 13% of the number of issued and outstanding Common Shares on that date. As at the Record Date, there were an aggregate of 7,409,127 Options and 4,200,175 Restricted Shares outstanding, representing 9.72% of the issued and outstanding Common Shares on that date, leaving approximately 3,909,631 Common Shares (representing 3.28% of the issued and outstanding Common Shares on that date) available for future grants under the Share Option Plan before taking into account Restricted Share grants which further reduces the unallocated entitlements. At December 31, 2017, there were an aggregate of 7,409,127 Options and 2,280,217 Restricted Shares outstanding, representing 8.29% of the issued and outstanding Common Shares on that date, leaving approximately 5,504,832 Common Shares (representing 4.71% of the issued and outstanding Common Shares on that date) available for future grants under the Share Option Plan before taking into account Restricted Share grants which further reduces the unallocated entitlements.

For a summary of the current terms of the Share Option Plan see "*Executive Compensation – Compensation Elements – Equity Incentive Compensation – Share Option Plan*" in this Information Circular.

Accordingly, at the Meeting, the following ordinary resolution will be presented:

"BE IT RESOLVED, as an ordinary resolution of the shareholders of the Corporation, that:

1. all unallocated Options issuable pursuant to the Share Option Plan are approved and authorized until May 23, 2021;
2. any one officer or Director of the Corporation be and is hereby authorized to execute and deliver all such agreements and documents, whether under the corporate seal or otherwise, and to take all action, as such officer or director shall deem necessary or appropriate to give effect to the foregoing resolutions; and
3. notwithstanding that this resolution has been duly passed by the shareholders of the Corporation, the Directors of the Corporation are hereby authorized and empowered to revoke this resolution, without any further approval of the shareholders of the Corporation, at any time if such revocation is considered necessary or desirable by the Directors."

The above resolution must be approved by a simple majority of votes cast by shareholders who vote in person or by proxy at the Meeting in respect of this resolution. It is the intention of management to vote proxies "FOR" approval of the ordinary resolution above, unless otherwise directed.

Approval of Unallocated Restricted Shares

As outlined above under "*Approval of Unallocated Options*", the TSX requires Director and shareholder approval every three (3) years after the institution of a security based compensation arrangement that does not have a fixed maximum number of securities issuable of all unallocated rights, options or other entitlements under such arrangement. At the annual general and special meeting of the Corporation's shareholders held on September 30, 2015 the shareholders approved the grant of Restricted Shares under the Restricted Share Plan until September 30, 2018.

As the Corporation's Restricted Share Plan is considered to be a security based compensation arrangement and as the maximum number of Common Shares issuable pursuant to the Restricted Share Plan is not a fixed number and instead is equal to 13% of the outstanding Common Shares, approval will be sought at the Meeting to approve the grant of unallocated Restricted Shares under the Restricted Share Plan. When Restricted Shares have been granted pursuant to the Restricted Share Plan, such outstanding Restricted Shares are referred to as allocated Restricted Shares. We have additional Common Shares that may be issued under the Restricted Share Plan, which are referred to as unallocated Restricted Shares.

If approval is obtained at the Meeting, the Corporation will not be required to seek further approval of the grant of unallocated Restricted Shares under the Restricted Share Plan until May 23, 2021. If approval is not obtained at the Meeting, Restricted Shares which have not been allocated as of May 23, 2018 and Restricted Shares which are outstanding as of May 23, 2018 and which are subsequently cancelled or returned to treasury will not be available for a new grant of Restricted Shares under the Restricted Share Plan. Previously allocated Restricted Shares will continue to be unaffected by the approval or disapproval of the resolution. In addition, if approval is not obtained, the Board will consider other long-term incentives for its Directors, officers and employees, including, but not limited to, cash payments to compensate for the Restricted Share Plan no longer being available for new grants of Restricted Shares.

As at the Record Date, the maximum number of Common Shares that may be issued under the Restricted Share Plan and all other securities based compensation arrangements, was 15,518,933, representing 13% of the number of issued and outstanding Common Shares on that date. As at the Record Date, there were an aggregate of 7,409,124 Options and 4,200,175 Restricted Shares outstanding, representing 9.72% of the issued and outstanding Common Shares on that date, leaving approximately 3,909,631 Common Shares (representing 3.28% of the issued and outstanding Common Shares on that date) available for future grants under the Restricted Share Plan before taking into account Option grants which further reduces the unallocated entitlements. At December 31, 2017, there were an aggregate of 7,409,127 Options and 2,280,217 Restricted Shares outstanding, representing 8.29% of the issued and outstanding Common Shares on that date, leaving approximately 5,504,832 Common Shares (representing 4.71% of the issued and outstanding Common Shares on that date) available for future grants under the Restricted Share Plan before taking into account Option grants which further reduces the unallocated entitlements.

For a summary of the current terms of the Restricted Share Plan see "*Executive Compensation – Compensation Elements – Equity Incentive Compensation – Restricted Share Plan*" in this Information Circular.

Pursuant to the requirements of the TSX, the approval of unallocated Restricted Shares requires approval of a majority of the votes cast by shareholders at the Meeting, but excludes 36,498,111 Common Shares (representing approximately 30.6% of the outstanding Common Shares) held directly or indirectly by shareholders that are insiders of AgJunction and whose Common Shares are required to be excluded from voting pursuant to the requirements of the TSX.

At the Meeting, the following ordinary resolution will be presented to the disinterested shareholders:

"BE IT RESOLVED, as an ordinary resolution of the disinterested shareholders of the Corporation, that:

1. all unallocated Restricted Shares issuable pursuant to the Restricted Share Plan are approved and authorized until May 23, 2021;
2. any one officer or Director of the Corporation be and is hereby authorized to execute and deliver all such agreements and documents, whether under the corporate seal or otherwise, and to take all action, as such officer or director shall deem necessary or appropriate to give effect to the foregoing resolutions; and
3. notwithstanding that this resolution has been duly passed by the shareholders of the Corporation, the Directors of the Corporation are hereby authorized and empowered to revoke this resolution, without any further approval of the shareholders of the Corporation, at any time if such revocation is considered necessary or desirable by the Directors."

The above resolution must be approved by a simple majority of votes cast by shareholders who vote in person or by proxy at the Meeting in respect of this resolution, after excluding the Common Shares held by insiders not entitled to vote on such resolution. It is the intention of management to vote proxies "FOR" approval of the ordinary resolution above, unless otherwise directed.

Appointment of Auditors

Unless otherwise directed, it is the intention of the persons named in the Instrument of Proxy furnished by the Corporation to vote in favour of an ordinary resolution to reappoint the firm of RSM US, LLP, to serve as auditors of the Corporation to hold office until the next annual general meeting of shareholders and to authorize the Board to fix their remuneration. RSM US, LLP have been the auditors of the Corporation since April 9, 2015.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The ultimate goal of AgJunction's compensation program for the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") and the three most highly compensated executive officers (or the five most highly compensated individuals acting in a similar capacity), other than the CEO and CFO, at the end of the year ended December 31, 2017 whose total compensation was more than \$150,000 (each a "Named Executive Officer" or "NEO" and collectively, the "Named Executive Officers" or "NEOs"), and for all AgJunction employees, is to foster profitable growth and to create long-term value for shareholders. During the year ended December 31, 2017 the following individuals were the Named Executive Officers of the Corporation:

- David Vaughn, President and Chief Executive Officer;
- Michael Manning, Senior Vice President and Chief Financial Officer;
- Mark Bittner, Senior Vice President Global Sales and Customer Care;
- Husam Kal, Senior Vice President Global Operations; and
- Bobac (Bob) Barjesteh, Vice President M&A, I.P and General Counsel.

We believe that the ability, performance, commitment and retention of our executives are essential leadership factors that drive shareholder value. We have designed and implemented a pay-for-performance compensation program that rewards corporate and individual performance and the creation of shareholder value. We believe that the program motivates strong performance, aligns the interests of our NEOs and employees with those of our shareholders, and supports our attraction and retention goals.

Our Compensation Committee is currently comprised of three independent, non-employee Directors – Lori S. Ell (Chair), Ryan J. Levenson and Jose F. Suarez. The Compensation Committee is responsible for discharging the Board's responsibilities with respect to compensation for our Named Executive Officers, as well as to provide general oversight of our global compensation program. The Compensation Committee has formal terms of reference that have been included as Schedule D to this Information Circular and describe the responsibilities, powers and operation of the Compensation Committee. Under the terms of reference, the Compensation Committee has the authority to retain outside advisors as it determines appropriate to assist it in the performance of its functions. On March 3, 2016, AgJunction engaged PayScale Inc. Human Capital, a cloud based compensation software company to assist with the

completion of a market study of all non-executive positions of the Corporation. The initial market study was completed on August 10, 2016.

The members of the Compensation Committee are each highly experienced executives, directors and/or businesspersons who have dealt with numerous compensation issues in the course of their leadership roles. The skills and experience that enable the members of the Compensation Committee to make decisions on the suitability of the Corporation's compensation policies and practices include the following:

- leadership roles as Chief Executive Officers, or other senior roles, providing experience and skills in managing human resources and compensation programs;
- experience in leading and managing private companies and serving on the board of directors of public companies in the case of Ms. Ell; and
- experience in managing equity and debt investment funds in the case of Mr. Levenson.

Also see "*Part III – Matters to be Acted Upon at the Meeting – Appointment of Directors – Election of Directors*" for further information on each member of the Compensation Committee.

The purpose of this compensation discussion and analysis is to summarize our compensation objectives, the elements of our compensation program, our compensation decision-making process, and the factors that we considered in making decisions about executive compensation for the fiscal year 2017.

Compensation Objectives

Performance

Key elements of our compensation program in 2017 were designed to reward strong corporate and individual performance, and retain our executives and key employees, including:

- base salaries were determined on a competitive basis depending on the executive's experience, scope of responsibilities, demonstrated leadership abilities, and effectiveness;
- incentive plan payments were based upon performance against pre-determined corporate performance by measuring profitability relative to the budgeted Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) for the year; and
- equity incentive compensation was comprised of Options and Restricted Shares. The ultimate value of equity incentive compensation is dependent on the performance of our share price after the date of the grant. Our equity incentive compensation programs are subject to vesting schedules that require continued service with us. See further discussion below under the heading "*Attraction and Retention*".

Alignment of Management Objectives with that of Shareholders

We seek to align the interests of the NEOs, and other executives and key employees, with those of our shareholders. Key elements of compensation that align the interests of our NEOs and other executives with shareholders include:

- our incentive plan, described below, that compensates executives for the achievement of key corporate goals that we believe correlate with improving shareholder value; and
- equity incentive compensation in the form of Restricted Shares, under which the ultimate value of the compensation is based on stock price appreciation subsequent to the date of particular grant.

Attraction and Retention

AgJunction has implemented a compensation program that we believe is competitive in order to attract and retain high quality executives and other employees.

Base salaries are established at competitive levels as determined by competitive benchmarking. In addition, our benefits and other elements of our overall compensation program are designed with the objective to be comparatively appealing.

Executives (and certain key employees) receive Options and Restricted Shares. Options are generally granted with a four-year, vesting schedule. Restricted Shares are granted with a three or four-year vesting schedule, with a minimum one year period before the first vesting date. Both of these programs support our retention objective by requiring the employee to remain employed by the Corporation to realize the additional potential compensation.

Risks

In establishing the compensation program, the Compensation Committee considered the implications of the risks associated with our program, including:

- the risk of executives taking inappropriate or excessive risks;
- the risk of inappropriate focus on achieving short-term goals at the expense of long-term return to shareholders;
- the risk of encouraging aggressive accounting practices; and
- the risk of excessive focus on financial returns and operational goals at the expense of regulatory, environmental and health and safety compliance.

While no program can fully eliminate risks, the Compensation Committee believes that risks are mitigated by:

- weighting long-term incentives towards equity-based incentives;
- avoiding narrowly focused performance goals and retaining adequate discretion to ensure that the Board and management retain their business judgment in assessing actual performance; and
- establishing a strong "tone at the top" for accounting, regulatory, environmental and health and safety compliance.

Pursuant to AgJunction's Disclosure, Confidentiality and Trading Policy, Directors, officers and employees of AgJunction, shall not knowingly sell, directly or indirectly, a security of AgJunction if such person selling such security does not own or has not fully paid for the security to be sold and shall not, directly or indirectly, buy or sell a call or put in respect of a security of AgJunction. Notwithstanding these prohibitions, Directors, officers and employees of AgJunction may sell a Common Share which such person does not own if such person owns another security convertible into Common Shares or an option or right to acquire Common Shares sold and, within 10 days after the sale, such person: (i) exercises the conversion privilege, option or right and delivers the Common Shares so associated to the purchaser; or (ii) transfers the convertible security, option or right, if transferable to the purchaser.

Compensation Elements

The compensation of the NEO's during the year ended December 31, 2017 consisted of the following primary elements:

- base salary;
- benefits;
- short-term incentive plan;
- cash bonuses;
- equity incentives; and
- retirement savings assistance.

Base Salary

Base salaries are designed to be competitive in order to attract and retain high caliber talent. The base salary for our NEOs is determined based upon an evaluation of the scope of their responsibilities, performance, experience and education and competitive benchmarking for similar positions. NEO base salary levels are reviewed annually by the Compensation Committee who considers ranges for base salary adjustments based upon consideration of corporate performance, cost of living changes, industry and market-performance data, and competitive compensation information received from compensation consulting firms and professional organizations. The adjustment to base salaries of NEOs will take into account these approved ranges, the performance of the NEO and changes in the NEOs responsibilities that may have taken place.

The base salaries of the NEOs for fiscal 2017 are discussed below and are summarized in the Summary Compensation Table contained herein.

Benefits

We provide our NEOs and all employees with benefits that we believe are appealing to employees to enhance attraction and retention. The primary benefits provided include:

- medical, vision and dental insurance coverage;
- life insurance equal to one and a half of the employee's salary (maximum \$400,000), plus \$10,000 for spouse and \$2,500 for each child;
- short term and long-term disability insurance;
- employee assistance plan;
- continuing education assistance;
- fitness/wellness membership reimbursements of \$300 per year;
- Health Savings Accounts/Flexible Spending Accounts; and
- paid vacation, holidays and paid time off.

Employees who reside in Canada are responsible to pay the cost of short-term and long-term disability coverage and those who reside in the United States are responsible to pay for voluntary life and the incremental costs of their selected medical, vision and dental insurance plan in excess of the Corporation's contribution for each plan level (ranging from \$366-\$908 per month).

Short-Term Incentive Plan

The short-term incentive plan (the "**Incentive Plan**") is the element of compensation that rewards executives and employees (excluding commissioned salespeople) based upon the achievement of corporate financial profitability goals.

For 2015, the Incentive Plan payout for each eligible NEO (and all eligible employees) was determined based upon the following formula:

$$\text{Incentive Payment} = \text{Corporate Performance Factor} \times \text{Target Incentive Rate}$$

For 2015, the Incentive Plan was payable based upon the level of actual profitability achieved within a range determined relative to the budgeted level of profit. For this purpose, profitability is measured as EBITDA before incentive payments expense. The range was set as follows:

- *Low* – at the lower boundary of the range, the Corporate Performance Factor is zero and incentive payments begin to accrue increases from that point;
- *Target* – at target, the Corporate Performance Factor is equal to 1.0; and
- *Above target* – above target, incentives continue to accrue on a pro-rata basis.

For 2016, the Incentive Plan payout for each eligible NEO (and all eligible employees) was determined based on the following formula:

$$\text{Tier Level \%} \times \text{Base Salary} \times \% \text{ Allocated to Individual Performance Rating} \times \text{Target Incentive Rate Factor (EBITDA)}$$

- Tier level % is a tier system based on an individual's position with AgJunction. Each tier is assigned a percentage as follows:

Tier	Annual Target Bonus (% of Base Salary)	Percentage of Annual Target Bonus Related to Company Performance	Percentage of Annual Target Bonus Related to Individual Performance
1 – President and CEO	50%	50%	-
2 – Executive VP and Senior VP	40%	40%	-
3 – VP and Senior Director	30%	25%	5%
4 – Director	20%	16%	4%
5 – Manager/Functional Equivalent	10%	7.5%	2.5%
6 – Non-Management	8%	5.3%	2.7%
7 – Support Personnel	6%	3%	3%

- Individual performance ratings are rating factors, set out in the chart below, which are used in executive and employee year-end performance reviews. The applicable annual rating for each executive and employee is determined by such persons superior.

Annual Rating	Bonus %	
3.8 – 4.0	100%+	Exceeds expectations
3.1 – 3.7	100%	Meets/achieved expectations
2.8 – 3.0	75%	Low meets/achieved expectations
2.0 – 2.7	50%	Partially meets expectations
1.0 – 1.9	N/A	Does not meet expectations

- Company performance targets are determined near the start of each fiscal year based upon our Board-approved strategic plan and budget for that year. The Compensation Committee receives and considers the input of management in regard to setting the Company performance targets and determining whether changes in the structure of the Incentive Plan are required.

For 2017, the Incentive Plan payout for each eligible NEO was determined based on the following formula:

$$\text{Tier Level \%} \times \text{Base Salary} \times \text{Target Incentive Rate (EBITDA)}$$

- In 2017, AgJunction used the same Tier level % numbers as for 2016 and included an additional tier as outlined below:

Tier	Annual Target Bonus (% of Base Salary)	Percentage of Annual Target Bonus Related to Company Performance	Percentage of Annual Target Bonus Related to Individual Performance
Mid-Level Manager	15%	11.5%	3.5%

The Compensation Committee reserves the right to adjust profitability to normalize it for unusual items that impact profits but which are out of the control of management. We have structured the Incentive Plan in this manner as we believe that profitable growth, together with strong performance of our employees relative to individual objectives, will correlate with improving shareholder value.

If warranted, Incentive Plan payments are paid annually once the audit of our financial results is complete.

No payments were made under the Corporation's Incentive Plan in the years ended December 31, 2015, 2016 and 2017 to NEOs.

Cash Bonuses

From time to time, the Compensation Committee has also awarded discretionary cash bonuses based upon its assessment of an executive's performance and contributions, and may do so in the future. A limited number of discretionary cash bonuses were paid in 2017.

Equity Incentive Compensation

The Compensation Committee has been authorized by the Board of Directors to administer our equity incentive compensation programs, which are comprised of the Share Option Plan and the Restricted Share Plan.

Share Option Plan

Historically, AgJunction has used Options issued pursuant to its Share Option Plan as a long-term incentive and retention program for its NEOs, and other executives and key employees. Option grants may also occur in other circumstances such as new hires, employee promotions, key employee retention efforts, and acquisition transactions as may be approved by the Compensation Committee. Options have historically been awarded to reward demonstrated performance and leadership, to motivate future performance, to align the interests of the NEOs, and other executives and employees, with those of our shareholders, and to support the retention of the executives and key employees through the term of the awards. In 2015, after consultation with AgJunction's legal counsel in the United States and Canada, the Corporation determined that Options were not as effective as a long-term incentive and retention tool for U.S. resident employees due to certain U.S. tax and securities laws, which have the effect of diminishing their value. Accordingly, the Board considered other means to incentivize and retain AgJunction Service Providers in the U.S. and, after consultation with AgJunction's legal counsel in the United States and Canada, the Board approved the adoption of the Restricted Share Plan. See "*Restricted Share Plan*" below.

The Share Option Plan permits the granting of Options to purchase Common Shares to our officers, Directors, key employees and key consultants. The Share Option Plan has a rolling maximum/evergreen limit for the issuance of Options up to, but not in excess of 13% the outstanding Common Shares (or approximately 15,518,933 Common Shares outstanding as at April 19, 2018). At December 31, 2017, there were 116,878,275 Common Shares outstanding, providing an Option limit of 15,194,176 Options of which 7,409,127 Options were outstanding representing 6.3% of the outstanding number of Common Shares, leaving approximately 5,504,832 Common Shares (representing 4.71% of the issued and outstanding Common Shares on that date) available for future grants under the Share Option Plan before taking into account Restricted Share grants which further reduces the unallocated entitlements. As of April 19, 2018, there were Options to purchase 7,409,127 Common Shares outstanding under the Share Option Plan (or approximately 6.21% of the 119,376,404 Common Shares outstanding as at such date), leaving approximately 3,909,631 Common Shares (representing 3.28% of the issued and outstanding Common Shares on that date) available for future grants under the Share Option Plan before taking into account Restricted Share grants which further reduces the unallocated entitlements.

The key features of the Share Option Plan are as follows:

- Directors, officers, employees and consultants, or those of subsidiaries, are eligible to receive Options under the Share Option Plan;
- the aggregate number of Common Shares issuable to any one person under the Share Option Plan, together with all other share compensation arrangements of the Corporation, must not exceed 7% of the then outstanding Common Shares (calculated on a non-diluted basis);
- the number of Common Shares together with all of the Corporation's other previously established or proposed share compensation arrangements issued to insiders within any one year period will not exceed 10% of the outstanding Common Shares;

- the aggregate number of Common Shares issuable to insiders at any time, under all security based compensation arrangements, must not exceed 10% of the outstanding Common Shares;
- any Options granted pursuant to the Share Option Plan shall be non-assignable;
- the vesting arrangements are within the discretion of the Board;
- the exercise price for Options is equal to the closing price of the Common Shares on the TSX on the trading day immediately preceding the date of grant;
- the term of Option grants are within the discretion of the Board, but cannot be longer than 10 years;
- the optionholder may exercise its right ("**Put Right**") to require the Corporation to purchase all or any part of the optionholder's Options by delivering to the Corporation a written notice of exercise ("**Put Notice**") specifying the number of Options with respect to which the Put Right is being exercised. Upon the exercise of a Put Right the Corporation will, at its sole discretion, deliver to the optionholder a cheque representing the purchase price for the Options specified in the Put Notice or a number of Common Shares;
- the Share Option Plan provides for the automatic extension of the exercise period of an Option that would expire during a blackout period for a maximum of 10 days following the end of such blackout period;
- Options terminate within a period of time following an optionholder ceasing to be at least one of an employee, Director, officer or consultant of the Corporation or of a subsidiary of the Corporation. However, in the event of death, Options will expire at the earlier of the end of the original Option period or 12 months after the date of death; and
- The Corporation does not provide any financial assistance to Share Option Plan participants to facilitate the purchase of Common Shares.

The Share Option Plan requires shareholder approval for the following amendments:

- to increase the percentage of Common Shares issuable on exercise of outstanding Options at any time;
- to change the manner of determining the minimum exercise price;
- to reduce the exercise price of any outstanding Options held by insiders;
- subject to the terms of the Share Option Plan, to extend the term of any outstanding Option held by insiders beyond the original expiry date of such Option;
- to make any change to eligible participants which would have the effect of broadening or increasing insider participation;
- to increase the maximum limit on the number of securities that may be issued to insiders;
- to permit an optionholder to transfer or assign Options to a new beneficial optionholder other than in the case of death of the optionholder; or
- to amend the amendment or discontinuance provisions of the Share Option Plan.

The Compensation Committee, subject to the prior approval of the Board of Directors, may approve amendments relating to the Share Option Plan without further approval of the shareholders, to the extent that such amendments relate to, without limitation:

- altering, extending or accelerating the terms and conditions of vesting of any Options;
- extending the term of Options held by a person other than a person who, at the time of the extension, is an insider, provided that the term does not extend beyond ten years from the date of grant;
- reducing the exercise price of Options held by a person other than a person who, at the time of the repricing, is an insider;
- accelerating the expiry date in respect of Options;
- adding a cashless exercise feature to the Share Option Plan;
- determining the adjustment provisions pursuant to the terms of the Share Option Plan;
- amending the definitions contained within the Share Option Plan;
- amending or modifying the mechanics of exercise of Options; or
- amendments of a "housekeeping" nature.

The Corporation's Options generally have a four year vesting period for employees and consultants and expire after five years. Options generally have a one year vesting period for Directors, which is consistent with their term.

Options are granted in accordance with a policy approved by the Board of Directors and provide for an exercise price equal to the closing price of the Common Shares on the TSX on the trading day immediately preceding the date of grant. The Option agreements include provisions for the acceleration of vesting upon the permanent disability or death of the optionholder and upon a change in control. In addition, they provide that Options expire thirty days after the last day of employment or engagement with the Corporation.

Options only generate value for NEOs (and other executives/employees) to the extent the price of our Common Shares on the date of exercise exceed the exercise price, and thus only provide additional compensation if the share price grows over the term of the award. For this reason, we believe that Options are a motivational tool encouraging the NEOs (and other executives/employees) to undertake actions to grow shareholder value.

Restricted Share Plan

On August 28, 2015, the Board approved the adoption of a Restricted Share Plan, which was approved by shareholders at the Corporation's annual and special meeting held on October 9, 2015.

Annual Restricted Share awards are made to NEOs, and to other executives, Directors and key employees. Restricted Shares may also occur in other circumstances such as new hires, employee promotions, key employee retention efforts and acquisition transactions as may be approved by the Compensation Committee. Restricted Shares are awarded to reward demonstrated performance and leadership, to motivate future performance, to align the interests of the NEOs, and other executives and employees with those of our shareholders, and to support the retention of the executives and key employees through the term of the awards.

As noted above, historically, AgJunction has used Options issued pursuant to its Share Option Plan as a long-term incentive and retention program for its Service Providers. However, in view of the fact that the large majority of AgJunction's service providers are residents of the United States, Options are no longer effective as a long-term incentive and retention tool due to certain U.S. tax and securities laws, which have the effect of diminishing their value. Accordingly, in 2015, the Board considered other means to incentivize and retain AgJunction service providers and, after consultation with AgJunction's legal counsel in the United States and Canada, the Board approved the adoption of the Restricted Share Plan.

The Restricted Share Plan permits the granting of Restricted Shares to our officers, Directors, key employees and key consultants. The Restricted Share Plan has a rolling maximum/evergreen limit for the issuance of Restricted Shares up to, but not in excess of 13% of the outstanding Common Shares (or approximately 15,518,933 Common Shares outstanding as at April 19, 2018). At December 31, 2017, there were 116,878,275 Common Shares outstanding, providing a Restricted Share limit of 15,194,176 Restricted Shares at which 2,280,217 Restricted Shares were outstanding representing 1.95% of the outstanding number of Common Shares, leaving approximately 5,504,832 Common Shares (representing 4.71% of the issued and outstanding Common Shares on that date) available for future grants under the Restricted Share Plan before taking into account Option grants which further reduces the unallocated entitlements. As of April 19, 2018, there were 4,200,175 Restricted Shares outstanding under the Restricted Share Plan (or approximately 3.52% of the 119,376,404 Common Shares outstanding as at such date), leaving approximately 3,909,631 Common Shares (representing 3.28% of the issued and outstanding Common Shares on that date) available for future grants under the Restricted Share Plan before taking into account Option grants which further reduces the unallocated entitlements..

The key features of the Restricted Share Plan are as follows:

- Directors, officers, employees and consultants, or those of subsidiaries, are eligible to receive Restricted Shares under the Restricted Share Plan;
- the aggregate number of Common Shares issuable to any one person under the Restricted Share Plan, together with all other share compensation arrangements of the Corporation, must not exceed 7% of the then outstanding Common Shares (calculated on a non-diluted basis);
- the number of Common Shares together with all of the Corporation's other previously established or proposed share compensation arrangements issued to insiders within any one year period will not exceed 10% of the outstanding Common Shares;
- the aggregate number of Common Shares issuable to insiders at any time, under all security based compensation arrangements, must not exceed 10% of the outstanding Common Shares;
- any Restricted Shares granted pursuant to the Restricted Share Plan are non-assignable;
- the vesting arrangements are within the discretion of the Board;
- upon the applicable conditions to vesting having been met, on the applicable vesting date, any vested Restricted Shares will be non-forfeitable and transferable by the participant and if the conditions to vesting have not been met by the applicable vesting date, the Restricted Shares that would have vested on the applicable vesting date will be deemed to have been forfeited by the participant. The Restricted Share Plan provides that vested Restricted Shares will not be transferred to a participant and may not be sold by a participant during a blackout period and unvested Restricted Shares will not be transferred to AgJunction for cancellation during a blackout period; and
- unvested Restricted Shares are forfeited following a participant ceasing to be at least one of an employee, Director, officer or consultant of the Corporation or of a subsidiary of the Corporation. However, in the event of death, all Restricted Shares shall vest and as a result the deceased participant will not forfeit any Restricted Shares.

The Restricted Share Plan requires shareholder approval for the following amendments:

- to increase the maximum number of Restricted Shares issuable pursuant to the Restricted Share Plan;
- to extend the term of a Restricted Share;
- to permit the assignment or transfer of a Restricted Share other than as provided for in the Restricted Share Plan;

- to make any change to eligible participants which would have the effect of broadening the categories of persons eligible to participate in the Restricted Share Plan;
- to increase the maximum limit on the number of securities that may be issued to insiders;
- to amend the amendment or discontinuance provisions of the Restricted Share Plan; and
- in any other circumstance where TSX and shareholder approval is required by the TSX.

The Compensation Committee, subject to the prior approval of the Board of Directors, may approve amendments relating to the Restricted Share Plan without further approval of the shareholders, to the extent that such amendments relate to, without limitation:

- correct any defect or supply any omission or reconcile any inconsistency in the Restricted Share Plan;
- altering, extending or accelerating the terms and conditions of vesting of any Restricted Shares;
- amending the definitions contained within the Restricted Share Plan;
- amending or modifying the mechanics of granting of Restricted Shares;
- amendments of a "housekeeping" nature;
- to the extent deemed necessary or desirable, establishing, amending and rescinding any rules and regulations relating to the Restricted Share Plan; or
- making such determinations as deemed necessary or desirable for the administration of the Restricted Share Plan.

In January 2017, we amended the terms of the Restricted Share Plan to allow AgJunction to cancel Common Shares granted under the Restricted Share Plan and which have been withheld to satisfy the payment of applicable taxes. The amendments were approved by the Board and did not require shareholder approval pursuant to the terms of the Restricted Share Plan.

The Corporation's Restricted Shares generally have a three-year vesting period. Restricted Shares granted to Mr. Vaughn have a four-year vesting period, subject to Board approval after meeting performance metrics determined by the Board of Directors in consultation with Mr. Vaughn.

The Restricted Share agreements include provisions for the acceleration of vesting upon the permanent disability or death of the participant and upon a change in control. In addition, they provide that unvested Restricted Shares are forfeited on the last day of employment or engagement with the Corporation.

We believe that Restricted Shares are a motivational tool encouraging the NEOs (and other executives/employees) to undertake actions to grow shareholder value.

Retirement Savings Assistance

In order to encourage retirement savings, we have implemented programs to assist employees with retirement savings. In Canada, this objective is accomplished through an RRSP-matching plan, in the United States this objective is accomplished through a 401(k) plan, and in Australia this is accomplished through mandated superannuation contributions. We believe that this element of the compensation program contributes to make our overall program more competitive in the marketplace and supports the attraction and retention of high quality executives and employees.

Under the programs, in Canada and the United States, we will fully match employee contributions up to 4% each pay period, reduced from 5% effective January 2017. In Australia, the current legislated superannuation contribution is 9.5% of base salary and Incentive Plan payments.

Under certain circumstances, we may suspend the Canadian and United States retirement savings programs. Matching contributions were not suspended for any pay periods in 2016 and 2017.

Compensation Determination Process

In developing our compensation program, management and the Compensation Committee have considered a variety of inputs in attempting to achieve competitive compensation packages that provide an appropriate balance between shorter-term cash compensation and longer-term equity compensation, and to properly reflect the performance and level of responsibility of the NEOs and other executive officers. In establishing the compensation for the NEOs, certain factors that have been considered include, but are not limited to, the following:

- the NEO's current total compensation;
- the NEO's individual performance;
- the qualifications of the NEO and potential for development and performance in the future;
- the strategic and operational responsibilities for which the NEO has responsibility;
- compensation levels of comparable positions at companies in our broad public technology industry category;
- cost of living changes, industry and market-performance data, and competitive compensation information received from consulting firms and professional organizations; and
- compensation of each of the NEOs relative to that of our other executive officers.

Base Salary

In 2016, we engaged PayScale to assist us with a detailed market evaluation of all positions in the Corporation for appropriate placement and potential career progressions for employees. Search criteria for market data included:

- Company Size
- Public Listing
- Company Industry
- Position Location

Market adjustments were made to correct and/or are being corrected where employees were identified to be below their pay band under the market evaluation. Ongoing informal reviews of market changes are completed regularly for retention and career progression.

Incentive Plan

For 2017, as described earlier, corporate performance targets were established based on profitability before incentive payments. No payments were made under the Corporation's Incentive Plan in the year ended December 31, 2017 as the Corporation's targeted EBITDA was not achieved.

Options

In prior years, management and the Compensation Committee have viewed Option awards as a critical element of the compensation program for the NEOs, other executives and key employees. The number of Options awarded to a particular NEO or officer is subject to adjustment depending upon consideration of a number of factors, including the performance of the NEO or other executive for the particular year. Previous grants of option-based awards are not generally considered when evaluating new grants. Special Option grants have historically been awarded in certain circumstances to reward performance related to specific projects and activities or to achieve other objectives including retention.

At April 19, 2018, the CEO held 3,040,327 Options representing 2.55% of the outstanding Common Shares on such date.

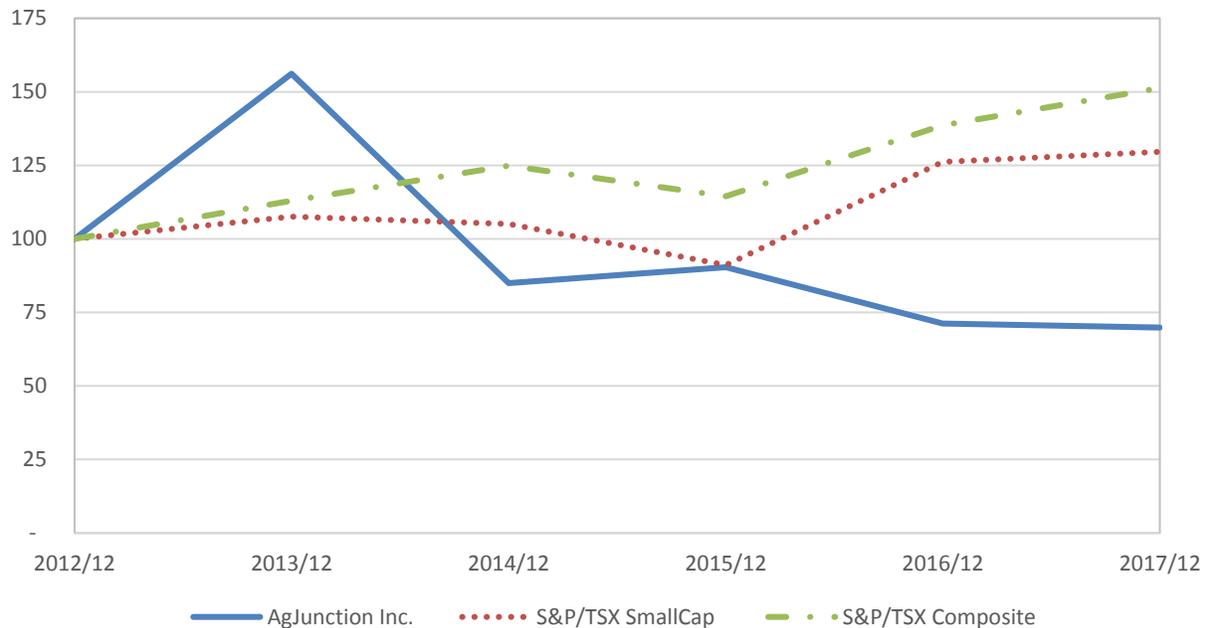

Restricted Shares

Due to certain tax disadvantages of Options, going forward, management and the Compensation Committee have viewed and continue to view Restricted Shares as a critical element of the compensation program for NEOs, other executives and key employees residing in the U.S. The number of Restricted Shares awarded to a particular NEO or officer is subject to adjustment depending upon consideration of a number of factors, including the performance of the NEO or other executive for the particular year. Previous grants of share-based awards are not generally considered when evaluating new grants. Special Restricted Share grants are also awarded occasionally to reward performance related to specific projects and activities or to achieve other objectives including retention.

At April 19, 2018, the CEO held 819,332 Restricted Shares representing 0.69% of the outstanding Common Shares on such date. Such Restricted Shares were granted in accordance with Mr. Vaughn's employment agreement.

Performance Graph

The following graph illustrates our five year cumulative shareholder return, as measured by the closing price of our Common Shares at the end of each financial year, assuming an initial investment of \$100 on December 31, 2012, compared to the S&P/TSX Composite Index and the S&P/TSX Canadian SmallCap Index, assuming the reinvestment of dividends where applicable.

	2012/12	2013/12	2014/12	2015/12	2016/12	2017/12

S&P/TSX SmallCap Index ⁽¹⁾	100	108	105	91	126	130

Note:

(1) Total Return Index.

As described in previous sections, the compensation for NEOs is determined by corporate performance.

The base salary and non-equity incentive elements of compensation were designed to motivate and reward Company performance for objectives designed to increase the Corporation's share price in the mid to long term. The primary factor determining payout under our Incentive Plan in 2015, 2016 and 2017 was profitability. In 2015, 2016 and 2017 the Corporation's performance goals were not achieved, and as a result, there were no Incentive Plan payments awarded to the NEOs for those years. A limited number of discretionary cash bonuses were paid in 2017.

As a small cap stock in the agriculture industry, stock prices for the Corporation are more volatile than for the TSX Composite and TSX Small Cap Index.

It is our objective to focus executive compensation on factors that build long term growth in the value of AgJunction such as revenue generation, profitability and initiatives that enhance our ability to grow profitably. While we believe that these factors should cause our share price to grow in the long term, they will not necessarily result in a consistent trend in annual non-equity executive compensation versus our share price – as that trend has a much shorter term focus.

Notes:

- Base salaries for the NEOs at December 31, 2017 are as follows: David Vaughn \$300,000 (2016: \$300,000); Michael Manning \$230,000 (2015 and portion of 2016: Mr. Manning was employed through Tarsus CFO Services, LLC ("Tarsus") as a contractor through March 31, 2016 and paid \$140 per hour); Mark Bittner \$240,000 (2016: \$240,000); Husam Kal \$230,000 (2016: \$230,000); Bobac (Bob) Barjesteh \$220,000 (2016: \$200,000).
- Share-based awards represent Restricted Shares. In 2017, there were no Restricted Share granted to the Named Executive Officers. AgJunction uses the Black-Scholes method for calculating the fair market value of Restricted Shares based the following weighted average assumptions for 2016: time to expiry of 1 year, closing Common Share price ranging from CDN\$0.53 to CDN\$0.70, interest rate using the average yield of marketable bonds from Bank of Canada website ranging from 0.63% to 0.69% and volatility ranging from 0.6326% to 0.6421%.

- (3) Options granted to NEOs are valued based on the grant date fair value of the applicable Option grant. Fair value is determined in a manner consistent with that used in preparing the Corporation's consolidated financial statements. This approach uses the Black-Scholes option pricing model with the following weighted average assumptions for 2016: zero dividend yield; weighted average volatility ranging from 0.4908% to 0.5566%; risk-free interest rate ranging from 0.63% to 0.80%; a pre-vest forfeiture rate of 12.4% and expected stock option life of 3 years. Fair values have been calculated in Canadian dollars and converted to US dollars based on the Bank of Canada daily exchange rates on December 29, 2017, December 30, 2016 and December 31, 2015 of \$1.2545, \$1.3427 and \$1.3840, respectively.
- (4) No payments were made to NEOs under the Corporation's Incentive Plan for the years 2015, 2016 and 2017 as the targeted EBITDA was not achieved.

Notes:

- (1) This table includes only the incremental amounts payable including accrued vacation upon termination on December 31, 2017 and change of control that are payable by contract with the NEOs.
- (2) The value of Options that vest upon change of control are calculated as the difference between the closing price of the Corporation's Common Shares on December 29, 2017 (USD\$0.41) and the exercise price of the Options. The Restricted Share calculations are based on multiplying the market value of the Common Shares at December 29, 2017 of USD\$0.41 by the number of Restricted Shares that vested. These values are converted to U.S. dollars at the Bank of Canada daily exchange rate on December 29, 2017 of \$1.2545. The Options held by Messrs. Vaughn, Manning, Bittner, Kal and Barjesteh at December 31, 2017 had an exercise price greater than the closing price, therefore there was no reportable value.

The Corporate Governance Committee, by its terms of reference (as attached as Schedule E to this Information Circular) is responsible to develop an orientation and education program for new recruits to the Board. The committee assesses new Directors' knowledge of the Corporation's business (products, industries, technologies, competition, etc.), identifies areas where more information is necessary, and provides that information through reference materials, meetings with staff, and through other means. In addition, the Corporate Governance Committee provides new Directors with copies of the Board's mandate, the standing committees' Terms of Reference, and other documentation.

Briefly describe what measures, if any, the board takes to provide continuing education for its directors. If the board does not provide continuing education, describe how the board ensures that its directors maintain the skill and knowledge necessary to meet their obligations as directors.

Board members pursue continuing education opportunities as considered appropriate by the particular Board member. In order to ensure that the Board remains knowledgeable about relevant technologies and industries, Board members receive regular technical or other relevant presentations as part of Board meetings and otherwise as considered necessary, and tour AgJunction's facilities.

Ethical Business Conduct

Disclose whether or not the board has adopted a written code for the directors, officers and employees.

The Board has adopted a written Code of Conduct ("**Code**") for all Directors, officers and employees.

If the board has adopted a written code:

(i) Disclose how a person or company may obtain a copy of the code

The Code is posted on AgJunction's internal intranet website (Sharepoint), and has been filed on the System for Electronic Document Analysis and Retrieval (SEDAR).

(ii) Describe how the board monitors compliance with its code, or if the board does not monitor compliance, explain whether and how the board satisfies itself regarding compliance with its code

All AgJunction Directors, officers and employees annually sign a form saying they are in compliance with the Code. The Code includes specific procedures for anyone wanting to report a perceived violation of the Code. In addition, the Corporation has a "Financial Concerns Submission Policy" that outlines those procedures and that is available to all employees and Directors. These procedures include access to an anonymous "whistle-blower hotline and website" (overseen by a third-party organization) that relays Code concerns directly to the Audit Committee. The Audit Committee has a standing or regular item on its meeting agendas to ensure that any submissions to the "whistle-blower hotline and website" are addressed promptly and thoroughly.

(iii) Provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial year that pertains to any conduct of a director or executive officer that constitutes a departure from the code.

There were no material change reports filed pertaining to any departures from the Code.

Describe any steps the board takes to ensure directors exercise independent judgement in considering transactions and agreements in respect of which a director or executive officer has a material interest.

Board members and executive officers are required to declare the nature and extent of any material interest in any transactions or agreements and may not vote in relation to any such matter. In certain cases an independent committee may be formed to deliberate on such matters in the absence of the interested party.

Describe any other steps the board takes to encourage and promote a culture of ethical business conduct.

Due to the fact that AgJunction has a Code, an effective procedure for monitoring and enforcing the Code, a Board Mandate, a Board chairman position description, and committee Mandates, the Board sees no need at this time for additional steps.

Nomination of Directors

Describe the process by which the board identifies new candidates for board nomination.

The Board's Corporate Governance Committee is responsible to develop and maintain a list of potential candidates for Board membership when necessary, and to review, interview, and recommend nominees to the full Board. Other Board members and management may also provide recommendations for nominees. Nominees must possess general business management experience, together with specific experience in areas of strategic interest to AgJunction. Nominees must also be willing and able to devote the required time and energy to Board responsibilities, and to support the Corporation's mission and strategic objectives.

Disclose whether or not the board has a nominating committee composed entirely of independent directors. If the board does not have a nominating committee composed entirely of independent directors, describe what steps the board takes to encourage an objective nomination process.

The Board has a Corporate Governance Committee, which is responsible for nominating Directors, which is comprised of three Directors, all of which are independent Directors.

If the board has a nominating committee, describe the responsibilities, powers and operation of the nominating committee.

The Board's Corporate Governance Committee, when the need for Board nominations arises, compiles and reviews a list of potential Board members and makes recommendations to the Board. See the Corporate Governance Committee's Mandate in the attached Schedule E.

Compensation

Describe the process by which the board determines the compensation for the issuer's directors and officers.

The Compensation Committee is responsible to review Directors' and officers' compensation, and where appropriate to make recommendations to change the compensation. To make its recommendations, the Compensation Committee takes into account, among other factors, the nature and amount of compensation paid to Directors and officers of comparable publicly traded companies and the circumstances of the Corporation. The details of such compensation are more fully described in the Executive Compensation section of this Information Circular.

Disclose whether or not the board has a compensation committee composed entirely of independent directors. If the board does not have a compensation committee composed entirely of independent directors, describe what steps the board takes to ensure an objective process for determining such compensation.

The Board has a Compensation Committee, which is comprised of three Directors, all of which are independent.

If the board has a compensation committee, describe the responsibilities, powers and operation of the compensation committee.

The Compensation Committee is charged with the responsibility to oversee the approach of the Corporation to matters concerning Director, executive and employee compensation and, from time to time, to make recommendations to the Board of Directors with respect to such matters. See the Compensation Committee's Mandate in the attached Schedule D.

Other Board Committees

If the board has standing committees other than the audit, compensation and nominating committees, identify the committees and describe their function.

The Board has a Corporate Governance Committee. The Committee's functions and responsibilities are outlined in the Mandates attached as Schedule E to this Information Circular.

Assessments

Disclose whether or not the board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe the process used for the assessments. If assessments are not regularly conducted, describe how the board satisfies itself that the board, its committees, and its individual directors are performing effectively.

The Corporate Governance Committee is responsible by its Mandates for periodically assessing the effectiveness of the Board as a whole, the committees of the Board and the contribution of individual Directors. The Committee conducts an annual review through the completion of a survey by each Director. In the survey, the Directors assess their own performance and that of their colleagues. The resulting information is summarized in confidential form with the results provided to the Chairman and each Director for review.

Disclose whether or not the issuer has adopted term limits for the directors on its board or other mechanisms of board renewal and, if so, include a description of those director term limits or other mechanisms of board renewal. If the issuer has not adopted director term limits or other mechanisms of board renewal, disclose why it has not done so.

The Board believes that the advantages of experience and long service must be balanced with renewal and the fresh perspectives of new directors. On March 22, 2016 the Board adopted a Director Tenure Policy (the "**Tenure Policy**"). Under the Tenure Policy, the maximum period that a Director may serve on the Board is 10 years. Accordingly, a Director would not stand for re-election at the next meeting of shareholders following their tenth year of service. However, in certain circumstances and on the recommendation of the Corporate Governance Committee, the Board may recommend a Director for re-election after their maximum term if it is in the best interests of the Corporation and may provide for one (1) year extensions of up to three (3) years.

The Tenure Policy applies retroactively to the Board. In view of the retroactive nature of the Tenure Policy, the Board has implemented a transition period for Directors that have reached the maximum tenure. Pursuant to the transition period, a Director that has reached the maximum tenure could be re-elected for additional one year terms to a maximum of three (3) years if the Corporate Governance Committee and the Board so recommends.

Disclose whether the issuer has adopted a written policy relating to the identification and nomination of women directors. If the issuer has not adopted such a policy, disclose why it has not done so. If an issuer has adopted a policy referred to in (a), disclose the following in respect of the policy: (i) a short summary of its objectives and key provisions; (ii) the measures taken to ensure that the policy has been effectively implemented; (iii) annual and cumulative progress by the issuer in achieving the objectives of the policy; and (iv) whether and, if so, how the board or its nominating committee measures the effectiveness of the policy.

The Corporation has not adopted a board and management diversity policy. Board nominations and executive officer appointments are made on the basis of the skills, knowledge, experience and character of individual candidates and the requirements of the Board and management at the time. The Corporation is committed to a meritocracy and believes that considering the broadest group of individuals who have the skills, knowledge, experience and character required to provide the leadership needed to achieve the business objectives, without reference to their age, gender, race, ethnicity or religion, is in the best interests of the Corporation and all of its stakeholders. The Board encourages the consideration of women who have the necessary skills, knowledge, experience and character for promotion or hiring into an executive officer position within the Corporation; however, the Board will not compromise the principles of a meritocracy by imposing quotas or targets.

Disclose whether and, if so, how the board or nominating committee considers the level of representation of women on the board in identifying and nominating candidates for election or re-election to the board. If the issuer does not consider the level of representation of women on the board in identifying and nominating candidates for election or re-election to the board, disclose the issuer's reasons for not doing so.

Although the Corporation does not have a formal policy, the Compensation Committee will review annually the composition and diversity of the Board, including the process of identifying women candidates as potential nominees for Board positions to ensure that women candidates are being fairly considered relative to other candidates. The Compensation Committee will also review the number of women actually appointed and serving on the Board to evaluate whether it is desirable to adopt requirements or policies in the future with respect to the diversity of the Board.

Disclose whether and, if so, how the issuer considers the level of representation of women in executive officer positions when making executive officer appointments. If the issuer does not consider the level of representation of women in executive officer positions when making executive officer appointments, disclose the issuer's reasons for not doing so.

As discussed above, the Compensation Committee will review annually the composition and diversity of appointments of executive officer positions to ensure that women with the appropriate skills, knowledge, experience and character are being fairly considered as opportunities become available. The Compensation Committee will also review the number of women actually serving in management positions to evaluate whether it is desirable to adopt requirements or policies with respect to the diversity of management.

(a) For purposes of this Item, a "target" means a number or percentage, or a range of numbers or percentages, adopted by the issuer of women on the issuer's board or in executive officer positions of the issuer by a specific date. (b) Disclose whether the issuer has adopted a target regarding women on the issuer's board. If the issuer has not adopted a target, disclose why it has not done so. (c) Disclose whether the issuer has adopted a target regarding women in executive officer positions of the issuer. If the issuer has not adopted a target, disclose why it has not done so. (d) If the issuer has adopted a target referred to in either (b) or (c), disclose: (i) the target, and (ii) the annual and cumulative progress of the issuer in achieving the target.

While the Corporation recognizes the benefits of diversity and believes that considering the broadest group of individuals who have the skills, knowledge, experience and character required to provide the leadership needed to achieve the business objectives of the Corporation is in the best interests of the Corporation and all of its stakeholders, the Corporation does not currently have any rules or formal policies that specifically require the identification, consideration, nomination or appointment of a targeted number of female Board nominees or candidates for executive management positions. The Board encourages the consideration of women who have the necessary, skills, knowledge, experience and character for promotion or hiring into an executive officer position within the Corporation; however, the Board will not compromise the principles of a meritocracy by imposing quotas or targets.

**Disclose the number and proportion (in percentage terms) of directors on the issuer's board who are women
(b) Disclose the number and proportion (in percentage terms) of executive officers of the issuer, including all major subsidiaries of the issuer, who are women.**

AgJunction has one woman on its executive management team (11.2%). AgJunction has one female member on its Board (16.7%).
