HEMISPHERE GPS INC.**INFORMATION CIRCULAR - PROXY STATEMENT
dated June 10, 2011****Annual General Meeting of Shareholders
to be held on July 13, 2011****PART I - INTRODUCTION**

This Information Circular - Proxy Statement (the "Information Circular") is furnished in connection with the solicitation of proxies by the management of Hemisphere GPS Inc. (the "Corporation" or "Hemisphere GPS") for use at the Annual General Meeting of Shareholders of the Corporation (the "Meeting") to be held at the offices of Hemisphere GPS located at 4110-9th Street S.E., Calgary, Alberta T2G 3C4 on Wednesday, July 13, 2011 at 9:30 a.m. (Calgary time) and at any adjournment thereof, and on every ballot that may take place in consequence thereof, for the purposes set forth in the Notice of Annual General Meeting of Shareholders.

Unless otherwise stated, the information contained in this Information Circular is given as at June 10, 2011.

No person has been authorized by Hemisphere GPS to give any information or make any representations in connection with the transactions herein described other than those contained in this Information Circular and, if given or made, any such information or representation must not be relied upon as having been authorized by Hemisphere GPS.

PART II - GENERAL PROXY INFORMATION**Solicitation of Proxies**

The Board of Directors has fixed the record date for the Meeting at the close of business on May 13, 2011 (the "**Record Date**"). Only holders of Common Shares of record as at that date are entitled to notice of the Meeting. Shareholders of record will be entitled to vote those Common Shares included in the list of shareholders entitled to vote at the Meeting prepared as at the Record Date, unless any such shareholder transfers Common Shares after the Record Date and the transferee of those Common Shares, having produced properly endorsed certificates evidencing such Common Shares or having otherwise established that he owns such Common Shares, demands, not later than ten (10) days before the Meeting, that the transferee's name be included in the list of shareholders entitled to vote at the Meeting, in which case such transferee shall be entitled to vote such Common Shares at the Meeting.

Appointment of Proxies

Instruments of Proxy must be mailed so as to reach or be deposited with the Corporation, c/o **Computershare Trust Company of Canada, 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1**, not less than 48 hours, excluding Saturdays and holidays, preceding the Meeting or any adjournment thereof.

Instruments of Proxy must be in writing and must be executed by the shareholder or his attorney authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as executors, administrators, trustees, etc. should so indicate and give their full title as such.

The persons named in the enclosed Instrument of Proxy are officers and Directors of the Corporation. Each shareholder has the right to appoint a person or persons, who need not be shareholders of the Corporation, other than the persons designated in the Instrument of Proxy furnished by the Corporation, to attend and act on such shareholder's behalf at the Meeting. To exercise such right, the names of management's nominees may be crossed out and the name(s) of the shareholder's nominee(s) legibly printed in the blank space provided, or another appropriate instrument of proxy may be submitted.

In the event of a strike, lockout or other work stoppage involving postal employees, Instruments of Proxy should be delivered to Computershare Trust Company of Canada as registrar and transfer agent of Hemisphere GPS by either facsimile to 1-866-249-7775, hand delivery or courier.

Revocability of Proxy

An Instrument of Proxy may be revoked at any time prior to the exercise thereof. If a person who has given an Instrument of Proxy attends personally at the Meeting at which such Instrument of Proxy is to be voted, such person may revoke the Instrument of Proxy and vote in person. In addition to revocation in any other manner permitted by law, a shareholder may revoke an Instrument of Proxy by depositing an instrument in writing executed by the shareholder or by its attorney authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized, and deposited at the registered office of the Corporation, 4110 - 9th Street S.E., Calgary, Alberta, T2G 3C4, at any time up to and including the last Business Day before the day of the Meeting, or any adjournment thereof, or with the Chairman of the Meeting on the day of the Meeting, or any adjournment thereof, and upon either of such deposits the Instrument of Proxy is revoked.

Persons Making the Solicitation

This solicitation is made on behalf of the management of the Corporation. The costs incurred in the preparation and mailing of the Instrument of Proxy, the Notice of Annual General Meeting of Shareholders and this Information Circular will be borne by the Corporation. In addition to the use of mail, Instruments of Proxy may be solicited by personal interviews, telephone or other means of communication by Directors, officers and employees of the Corporation, none of whom will be specifically remunerated therefor.

Exercise of Discretion

The Common Shares represented by the Instrument of Proxy furnished by the Corporation, where the shareholder specifies a choice with respect to any matter to be acted upon, will be voted or withheld from voting on any ballot in accordance with the specification so made. **In the absence of such specification, such Common Shares will be voted in favour of the matters described in the Notice of Annual General Meeting of Shareholders. The persons appointed under the Instrument of Proxy furnished by the Corporation are conferred discretionary authority with respect to amendments or variations of those matters specified in the Instrument of Proxy and with respect to any other matters which may properly be brought before the Meeting or any adjournment thereof. At the time of the printing of this Information Circular, management of the Corporation knows of no such amendment, variation or other matter.**

Advice to Beneficial Holders of Securities

The information set forth in this section is of significant importance to many public shareholders of Hemisphere GPS, as a substantial number of the public shareholders of Hemisphere GPS do not hold Common Shares in their own name. Shareholders who do not hold their Common Shares in their own name (referred to in this Information Circular as "**Beneficial Shareholders**") should note that only proxies deposited by shareholders whose names appear on the records of Hemisphere GPS as the registered holders of Common Shares can be recognized and acted upon at the Meeting. If Common Shares are listed in an account statement provided to a shareholder by a broker, then in almost all cases those Common Shares will not be registered in the shareholder's name on the records of Hemisphere GPS. Such Common Shares will more likely be registered under the name of the shareholder's broker or an agent of that broker. In Canada, the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominee for many Canadian brokerage firms). Common Shares held by brokers or their nominees can only be voted (for or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, brokers/nominees are prohibited from voting Common Shares for their clients. The Directors and officers of Hemisphere GPS do not know for whose benefit the Common Shares registered in the name of CDS & Co. are held.

Applicable regulatory policy requires intermediaries/brokers to seek voting instructions from Beneficial Shareholders in advance of the Meeting. Every intermediary/broker has its own mailing procedures and provides its

own return instructions, which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Shareholder by its broker is identical to the form of proxy provided to registered shareholders. However, its purpose is limited to instructing the registered shareholders how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("**Broadridge**"). **If you receive a voting instruction form from Broadridge or another intermediary it cannot be used as a proxy to vote Common Shares directly at the Meeting as the proxy must be returned (or otherwise reported as provided in the voting instruction form) as described in the voting instruction form well in advance of the Meeting in order to have the Common Shares voted.**

PART III - MATTERS TO BE ACTED UPON AT THE MEETING

Receipt of the Financial Statements and Auditors' Report

At the Meeting, shareholders will receive and consider the financial statements of the Corporation for the year ended December 31, 2010 and the Auditors' Report thereon, but no vote by the shareholders with respect thereto is required or proposed to be taken.

Majority Voting for Directors

The Board has adopted a policy stipulating that if the "WITHHOLD" votes in respect of the election of a Director nominee at the Meeting represent more than the "FOR" votes, the nominee will submit his resignation within 90 days of the Meeting, for the Board's consideration. The Board will consider such resignation and after reviewing the matter will determine, having regard to all matters it deems relevant, whether to accept such resignation or not. The Board's decision to accept or reject the resignation will be disclosed to the public within 90 days of the Meeting. The nominee will not participate in any Board deliberations on the resignation. The policy does not apply in circumstances involving contested Director elections.

Fix the Number of Directors to be Elected at the Meeting

The Articles of the Corporation specify that the Board of Directors shall consist of a minimum of three and a maximum of eleven Directors. At the Meeting, it is proposed that the number of Directors of the Corporation to be elected at the Meeting be set at seven (7), as may be adjusted between shareholders' meetings by way of resolution of the Board. Accordingly, unless otherwise directed, it is the intention of Management to vote Instrument of Proxy in the accompanying form in favour of fixing the number of Directors of the Corporation to be elected at the Meeting at seven (7)

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The ultimate goal of our compensation program for the Chief Executive Officer ("**CEO**") and Chief Financial Officer ("**CFO**") and the three most highly compensated executive officers (or the three most highly compensated individuals acting in a similar capacity), other than the CEO and CFO, at the end of the year ended December 31, 2010 whose total compensation was more than \$150,000 (each a "**Named Executive Officer**" or "**NEO**" and collectively, the "**Named Executive Officers**" or "**NEOs**"), and for all Hemisphere GPS employees, is to foster profitable growth and to create long-term value for shareholders. We believe that the ability, performance, commitment and retention of our executives are essential leadership factors that drive shareholder value. We have designed and implemented a pay-for-performance compensation program that rewards corporate and individual performance and the creation of shareholder value. We believe that the program motivates strong performance, aligns the interests of our NEOs and employees with those of our shareholders, and supports our attraction and retention goals.

Our Compensation Committee is composed of two independent, non-employee Directors and is responsible to discharge the Board of Directors' responsibilities with respect to compensation for our Named Executive Officers, as well as general oversight of our global compensation program. The Compensation Committee has formal terms of

reference and has the authority to retain outside advisors as it determines appropriate to assist it in the performance of its functions.

The purpose of this compensation discussion and analysis is to summarize our compensation objectives, the elements of our compensation program, our compensation decision-making process, and the factors that we considered in making decisions about executive compensation for the fiscal year 2010.

Compensation Objectives

Performance

Key elements of the compensation program are designed to reward strong corporate and individual performance including:

- Base salaries are determined on a competitive basis depending on the executive's experience, scope of responsibilities, demonstrated leadership abilities, and effectiveness;
- Incentive plan payments are based upon performance against pre-determined corporate and individual performance objectives. Corporate performance is measured by profitability relative to the budgeted net income for the year. For business segment leaders, corporate performance is also measured based on the performance of the business segment. Individual performance objectives relate to specific operational targets and personal development objectives; and
- Equity incentive compensation is comprised of share options and the partial matching of purchases of Hemisphere GPS Common Shares by the NEOs under our employee share purchase program. The ultimate value of equity incentive compensation is dependent on the performance of our share price after the date of the grant. Both equity incentive compensation programs are subject to vesting schedules that require continued service with us. See further discussion below under the heading "Attraction and Retention".

Alignment of Management Objectives with that of Shareholders

We seek to align the interests of the NEOs, and other executives and key employees, with those of our shareholders. Key elements of compensation that align the interests of our NEOs and other executives with shareholders include:

- Our incentive plan, described below, that compensates executives for the achievement of key corporate and individual goals that we believe correlate with improving shareholder value; and
- Equity incentive compensation in the form of share options and stock ownership, under which the ultimate value of the compensation is based on stock price appreciation subsequent to the date of particular grant.

Attraction and Retention

Hemisphere GPS has implemented a compensation program that we believe is competitive in order to attract and retain high quality executives and other employees.

Base salaries are established at competitive levels as determined by competitive benchmarking. In addition, our benefits and other elements of our overall compensation program are designed with the objective to be comparatively appealing.

Executives (and certain key employees) receive share options and all employees are eligible for stock grants under the employee share purchase plan. Share options are granted with a four-year, month-by-month vesting schedule. Corporation-matched purchases of stock under the employee share purchase plan vest one year after the employee's purchase of stock. Both of these programs support our retention objective by requiring the employee to remain employed by the Corporation to realize the additional potential compensation.

Compensation Elements

The compensation of the NEO's consists of the following primary elements:

- Base salary
- Fringe benefits
- Incentive plan
- Equity incentives
- Retirement savings assistance

Base Salary

Base salaries are designed to be competitive in order to attract and retain high calibre talent. The base salary for our NEOs is determined based upon an evaluation of the scope of their responsibilities, performance, experience and education and competitive benchmarking for similar positions. Corporation-wide base salary levels are reviewed annually by the Compensation Committee who approve ranges for base salary adjustments based upon consideration of corporate performance, cost of living changes, industry and market-performance data, and competitive compensation information received from compensation consulting firms (including Radford and Culpepper and Associates) and professional organizations. The adjustment to base salaries of NEOs will take into account these approved ranges, the performance of the NEO and changes in the NEOs responsibilities that may have taken place.

The base salaries of the NEOs for fiscal 2010 are discussed below and are summarized in the Summary Compensation Table on page 18.

Fringe benefits

We provide our NEOs, and all employees, with fringe benefits that we believe are appealing to employees to enhance attraction and retention. The primary fringe benefits provided include:

- Medical and dental insurance coverage;
- Life insurance of \$50,000, plus \$10,000 for spouse and \$5,000 for each child;
- Short term and long-term disability insurance (premiums paid by NEOs/employees);
- Employee assistance plan;
- Continuing education assistance;
- Fitness/wellness membership reimbursements of \$300 per year; and
- Paid vacations and holidays.

NEOs who reside in Canada are responsible to pay 30% of the cost of medical and dental insurance coverage costs and those who reside in the United States are responsible to pay for the incremental costs of their selected medical and dental insurance plan in excess of \$500 per month.

Incentive Plan

The incentive plan (the "**Incentive Plan**") is the element of compensation that rewards executives and employees (excluding commissioned salespeople) based upon the achievement of corporate financial profitability goals and based upon individual performance relative to objectives.

The Incentive Plan payout for each eligible NEO (and all eligible employees) is determined based upon the following formula:

$$\text{Incentive Payment} = \text{Corporate Performance Factor} \times \text{Individual Performance Factor} \times \text{Target Incentive Rate}$$

Corporate Performance Factor

For 2010, the Incentive Plan is payable based upon the level of actual profitability achieved within a range determined relative to the budgeted level of profit. For this purpose, profitability is measured as net income, calculated in accordance with generally accepted accounting principles ("GAAP") before incentive payments expense ("NIBIP"). The range was set as follows:

- *Budget* – at the lower boundary of the range, the Corporate Performance Factor is zero and incentive payments begin to accrue as NIBIP increases from that point;
- *Mid-Point* – at the mid-point NIBIP, the Corporate Performance Factor is equal to 0.75;
- *Target* – at target NIBIP, which is a defined level in excess of budgeted NIBIP, the Corporate Performance Factor is equal to 1.0; and
- Above target, incentives continue to accrue on a pro-rata basis.

The Compensation Committee reserves the right to adjust profitability to normalize it for unusual items that impact profits but which are out of the control of management.

For business segment leaders, the Corporate Performance Factor is determined on a weighted average basis, with 30% determined based upon consolidated NIBIP and 70% determined based on direct business segment performance with one-third weighting from each of business segment revenues, margins and profitability.

Individual Performance Factor

Together with their direct manager, each of the NEOs (and all eligible employees) set individual objectives, cascaded from our strategic objectives, through our Performance Management Process ("PMP"). The CEO establishes our strategic objectives, and his individual objectives, with the Board of Directors coordinated by the Compensation Committee. At year end, the individual performance of each of the NEOs (and all eligible employees) is rated based upon performance relative to their individual objectives, and Individual Performance Factors are established using the following:

- | | |
|----------------------------|-----|
| • Exceeded objectives | 1.5 |
| • Fully met objectives | 1.0 |
| • Partially met objectives | 0.5 |
| • Did not meet objectives | 0.0 |

Target Incentive Rate

A Target Incentive Rate has been established for various employee levels in the Corporation based upon competitive benchmarking analysis. The NEO target incentive rates are as follows:

- | | |
|--|-----------|
| • President and Chief Executive Officer | 67% |
| • Senior Vice Presidents and Vice Presidents | 30% - 40% |
| • All other eligible employees | 5% - 20% |

We have structured the Incentive Plan in this manner as we believe that profitable growth, together with strong performance of our employees relative to individual objectives, will correlate with improving shareholder value.

Incentive Plan payments are paid annually in February once the audit of our financial results is complete.

Corporate performance targets and individual objectives are determined near the start of each fiscal year based upon our board-approved strategic plan and budget for that year. The Compensation Committee receives and considers the input of Management in regard to setting the corporate performance targets and determining whether changes in the structure of the Incentive Plan are required.

From time to time, the Compensation Committee has also awarded discretionary cash bonuses based upon its assessment of an executive's performance and contributions, and may do so in the future.

The incentive compensation awarded to the NEOs in fiscal 2010 is discussed below and is summarized in the Summary Compensation Table on page 18.

Equity Incentive Compensation

The Compensation Committee has been authorized by the Board of Directors to administer our equity incentive compensation programs, which are comprised of the Share Option Plan and the Employee Share Purchase Plan.

Share Option Plan

Annual share option awards are made to the NEOs, and to other executives and key employees. Share option grants may also occur in other circumstances such as new hires, employee promotions, key employee retention efforts, and acquisitions as may be approved by the Compensation Committee. Share options are awarded to reward demonstrated performance and leadership, to motivate future performance, to align the interests of the NEOs, and other executives and employees with those of our shareholders, and to support the retention of the executives and key employees through the term of the awards.

The Share Option Plan permits the granting of share options to purchase Common Shares to our officers, Directors, key employees and key consultants. The Plan has a rolling maximum/evergreen limit for the issuance of share options up to, but not in excess of 10% of outstanding Common Shares. At December 31, 2010, there were 55,569,176 Common Shares outstanding, providing a share option limit of 5,556,918 share options of which 5,193,469 share options were outstanding representing 9.3% of the outstanding number of Common Shares. As of June 10, 2011, there were share options to purchase 5,153,875 Common Shares outstanding under the Plan (or approximately 8.5% of the 60,824,409 Common Shares outstanding as at such date).

The key features of the Plan are as follows:

- Directors, officers, employees and consultants, or those of subsidiaries, are eligible to receive share options under the Plan;
- the aggregate number of Common Shares reserved for issuance to any one person under the Plan, together with all other share compensation arrangements of the Corporation, must not exceed 5% of the then outstanding Common Shares (calculated on a non-diluted basis);
- the number of Common Shares together with all of the Corporation's other previously established or proposed share compensation arrangements issued to insiders within any one year period will not exceed 10% of the outstanding Common Shares;
- the aggregate number of Common Shares reserved for issuance to insiders at any time, under all security based compensation arrangements, must not exceed 10% of the outstanding Common Shares;
- any share options granted pursuant to the Plan shall be non-assignable;
- the vesting arrangements are within the discretion of the Board;
- the exercise price for share options is equal to the closing price of the Common Shares on the TSX on the trading day immediately preceding the date of grant;
- the term of share option grants are within the discretion of the Board, but cannot be longer than 10 years;

- the Plan provides for the automatic extension of the exercise period of a share option that would expire during a blackout period for a maximum of 10 days following the end of such blackout period; and
- share options terminate within a period of time following an optionholder ceasing to be at least one of an employee, Director, officer or consultant of the Corporation or of a subsidiary of the Corporation. However, in the event of death, share options will expire at the earlier of the end of the original share option period or 12 months after the date of death.

The Plan requires shareholder approval for the following amendments:

- to increase the percentage of Common Shares issuable on exercise of outstanding share options at any time;
- to change the manner of determining the minimum exercise price;
- to reduce the exercise price of any outstanding share options held by insiders;
- subject to Section 8 of the Plan, to extend the term of any outstanding share option held by insiders beyond the original expiry date of such share option;
- to make any change to eligible participants which would have the effect of broadening or increasing insider participation;
- to increase the maximum limit on the number of securities that may be issued to insiders;
- to permit an optionee to transfer or assign share options to a new beneficial optionee other than in the case of death of the optionee; or
- to amend the amendment or discontinuance provisions of the Plan.

The Compensation Committee, subject to the prior approval of the Board of Directors, may approve amendments relating to the Plan without further approval of the shareholders, to the extent that such amendments relate to, without limitation:

- altering, extending or accelerating the terms and conditions of vesting of any share options;
- extending the term of share options held by a person other than a person who, at the time of the extension, is an insider, provided that the term does not extend beyond ten years from the date of grant;
- reducing the exercise price of share options held by a person other than a person who, at the time of the repricing, is an insider;
- accelerating the expiry date in respect of share options;
- adding a cashless exercise feature to the Plan;
- determining the adjustment provisions pursuant to Section 10(a) of the Plan;
- amending the definitions contained within the Plan;
- amending or modifying the mechanics of exercise of share options; or
- amendments of a "housekeeping" nature.

Share options granted during 2010 have a four year vesting period and expire after five years. Share options are granted in accordance with a policy approved by the Board of Directors and provide for pricing at the closing price of our Common Shares on the day that is a specified number of days following the specific date of approval with respect to such share options. The share option agreements include provisions for the acceleration of vesting upon the permanent disability or death of the option holder and upon a change in control. In addition, they provide that options expire thirty days after the last day of employment or engagement with the Corporation.

Share options only generate value for NEOs (and other executives/employees) to the extent the price of our Common Shares on the date of exercise exceed the exercise price, and thus only provide additional compensation if the share price grows over the term of the award. For this reason we believe that share options are a motivational tool encouraging the NEOs (and other executives/employees) to undertake actions to grow shareholder value.

Employee Share Purchase Program

In April 2008, we implemented an Employee Share Purchase Program to encourage NEOs, executives and employees to purchase and hold our Common Shares. Under this program, we will match 50% of purchases of Common Shares by employees under the program to a maximum of 2% of the employees' salary. The matching Common Shares are purchased by us at the time of employee purchases and are placed in trust. These purchases vest with the employee one year after the executive/employees' purchase date.

The objectives of the Employee Share Purchase Program are:

- to encourage share ownership, which aligns executive/employee interests with those of our shareholders;
- to help retain high quality executives/employees through the vesting feature; and
- to provide additional compensation as an element of a competitive compensation package.

Grants under the Share Option Plan and the Employee Share Purchase Program are discussed below and are shown in the Summary Compensation Table on page 18.

Retirement Savings Assistance

In order to encourage retirement savings, we have implemented programs to assist employees with retirement savings. In Canada, this program is accomplished through an RRSP-matching plan, in the United States this program is accomplished through a 401K plan, and in Australia this is accomplished through mandated superannuation contributions. We believe that this element of the compensation program contributes to make our overall program more competitive in the marketplace and supports the attraction and retention of high quality executives and employees.

Under the programs, in Canada and the United States, we will fully match savings made by employees up to 4% of base salary and incentive plan payments. In Australia, the legislated superannuation contributions are 9% of base salary and incentive plan payments.

Under certain circumstances, we may suspend matching contributions under the Employee Share Purchase Program and the Canadian and United States retirement savings programs. For example, in 2009, in light of lower revenues associated with recessionary conditions, matching contributions were suspended from October 1 to December 31. Matching contributions were resumed effective January 1, 2010.

Compensation Determination Process

In developing our compensation program, Management and the Compensation Committee have considered a variety of inputs in attempting to achieve competitive compensation packages that provide an appropriate balance between shorter-term cash compensation and longer-term equity compensation, and to properly reflect the performance and level of responsibility of the NEOs and other executive officers. In establishing the compensation for the NEOs, certain factors that have been considered include, but are not limited to, the following:

- the NEO's current total compensation;
- the NEO's individual performance;
- the qualifications of the NEO and potential for development and performance in the future;
- the strategic and operational responsibilities for which the NEO has responsibility;
- compensation levels of comparable positions at companies in our broad public technology industry category;
- cost of living changes, industry and market-performance data, and competitive compensation information received from consulting firms, including Radford Consulting and Culpepper and Associates, as well as professional organizations; and
- compensation of each of the NEOs relative to that of our other executive officers.

Base Salary

In 2006, we engaged the Hay Group, a global consulting firm, to assist us with an evaluation of our organizational structure, a detailed evaluation of all positions in the Corporation, and the creation of a detailed job banding structure that provides for appropriate placement and potential career progressions for employees. Every position in the Corporation was placed within the defined job bands based on Hay Groups' job evaluation methodology, which according to the Hay Group is used by over half of the Fortune 500 companies. Competitive salary ranges were then established for each job band based upon data received from technology-specific compensation consulting groups Radford Consulting (Canada) and Culpepper and Associates (United States). Where available and appropriate, we also consider salary survey information for specific job categories, such as information from professional engineering or accounting associations. As a guiding principle, salary ranges for each of the job bands are set from the 10th percentile to the 75th percentile based on salary survey data gathered. Similarly, target incentive rates for each job band were established based on compensation survey information received from these sources.

Each of the NEOs' positions were evaluated as part of the Hay Group project and the NEOs were placed in the appropriate job band. For 2010, all of the NEOs are within the salary range that has been established for the appropriate job band. The specific placement of NEOs within the range established for the job band are dependent on the evaluation of the factors described previously in the introductory paragraph under "Compensation Determination Process" above.

In addition to the Hay Group process described above, for the CEO, the Compensation Committee considered the base salary, incentive compensation and share option grant levels for Chief Executive Officers of the following small-cap technology companies:

Canadian-Listed Companies:

Absolute Software Corp.
Gennum Corporation
Webtech Wireless Inc.
Zedi Inc.

Axia Netmedia Corporation
Intermap Technologies Corporation
Wi-Lan Inc.

Computer Modeling Group
Sierra Wireless, Inc.
Wireless Matrix Corporation

United States-Listed Companies:

Digi International Inc.
Opnet Technologies, Inc.
Sierra Wireless, Inc.

Maxwell Technologies Inc.
Raven Industries, Inc.
Trimble Navigation

Openwave Systems Inc.
SiRF Technology Holdings, Inc.
Universal Display Corporation

This survey group was selected with the objective of including small-cap companies engaged in technology-related activities in Canada and the United States. Companies were sought which are engaged in similar markets - such as GPS development and manufacturing or who sold agriculture-related products – as well as other technology-related companies to provide a larger sample size.

The Canadian-listed group of companies had market capitalizations ranging from about Cdn\$40 million to Cdn\$310 million calculated as of date of the regulatory filing from which the compensation data was sourced. The United States-listed group of companies had market capitalizations ranging from US\$175 million to US\$3.5 billion calculated as of date of the regulatory filing from which the compensation data was sourced.

While the Compensation Committee reviewed compensation data from United States-listed companies for 2010, greater priority was placed on the compensation information provided by Canadian-listed public companies for purposes of benchmarking the base salary, target incentive rate and share options grants.

Incentive Plan

For 2010, as described earlier, there are two elements that determine the amount of Incentive Plan payments to NEOs – corporate performance and individual performance.

Corporate performance targets were established based on profitability before incentive payments.

Individual performance objectives were established for the CEO with consultation and approval by the Compensation Committee. Although the specific details of the performance objectives are considered by us to be confidential, the primary elements of these objectives were as follows:

- Achieve budgeted financial metrics with respect to revenues and earnings;
- Achieve specific progress relating to the 2010 strategic level objectives:
 - Increase share in existing verticals and defend current penetration;
 - Expand business to new vertical markets and applications, including specific initiatives associated with new vertical markets, international expansion, new products, new customers and strategic alliances;
 - Streamline operations to achieve sustained profitability, including specific initiatives associated with forecasting, inventories, quality, new product introduction, customer service, and web-based commerce;
 - Deliver to product and technology roadmap plans;
- Cost reduction through supply chain and operational efficiencies with specific performance targets;
- Continued evolution of the new product introduction process with specific performance targets;
- Improved performance in customer satisfaction surveys, as measured by customer ratings;
- Improve performance and engagement levels including winning spirit, increased accountability, communication and trust;
- Successfully market the Corporation to the investment community and generate positive shareholder value; and
- Continue to generate positive employee morale, as measured by a benchmark survey and retention levels.

Share Options

Management and the Compensation Committee view share option awards as a critical element of the compensation program for the NEOs, other executives and key employees. We apply a formula to determine annual share option grants for NEOs and other executives, with the exception of the CEO. Under this formula, each NEO or other executive receives an annual grant of share options with the number of share options equal to approximately 20 – 25% of their annual base salary. The actual percentage awarded to a particular NEO or officer is subject to adjustment depending upon consideration of a number of factors, including the performance of the NEO or other executive for the particular year. Previous grants of option-based awards are not generally considered when evaluating the new grants.

The annual share option grant for the CEO is based upon evaluation of his current year performance as well as internally prepared compensation survey data as described previously. At June 20, 2011, the CEO held 890,000 share options representing 1.46% of outstanding Common Shares.

Special share option grants are also awarded occasionally to reward performance related to specific projects and activities or to achieve other objectives including retention.

Special Share Option Grants

The number of share options granted to the NEOs in 2010 were as follows:

| | Annual Share Option Grant | | Other Share Option Grants | |
|----------------------|---------------------------|----------------|---------------------------|-------------------|
| | Number | Exercise Price | Number | Exercise Price |
| Steven L. Koles | 100,000 | \$0.99 | 75,000 | \$0.85 |
| Cameron B. Olson | 50,000 | \$0.99 | 12,500 | \$0.85 |
| Kip E. Pendleton | 45,000 | \$0.99 | - | - |
| Michael L. Whitehead | 40,000 | \$0.99 | 25,045 | \$0.85 and \$0.82 |
| Philip W. Gabriel | 47,767 | \$0.99 | 9,000 | \$0.85 |

Performance Graph

The following graph illustrates our five year cumulative shareholder return, as measured by the closing price of our Common Shares at the end of each financial year, assuming an initial investment of \$100 on December 31, 2005, compared to the S&P/TSX Composite Index and the S&P/TSX Canadian SmallCap Index, assuming the reinvestment of dividends where applicable.

Note:

(1) Total Return Index.

As described in previous sections, the compensation for NEOs is influenced by a variety of factors including corporate and individual performance as well as the share price performance.

The focus of the base salary and non-equity incentive elements of compensation is to motivate and reward corporate and individual performance for objectives designed to increase our share price in the mid to long term. The primary factor driving payout under our Incentive Plan in 2010 was profitability. As a consolidated loss was realized in 2010, there were no Incentive Plan payments awarded to the NEOs for the year related to consolidated corporate performance. Some Incentive Plan awards were awarded to certain NEO's for achievement of specific elements of business segment and personal objectives which are aligned with the long term growth strategies of the Company

The Corporation's financial performance and share price has been negatively impacted by the turbulence in the global economic markets, along with the Canadian and global equity markets in general. NEO compensation, and potential compensation, available through the incentive plan and equity incentive elements, has declined as a result.

It is challenging to compare the trend in executive compensation to the performance graph given executive turnover during this period of time and the change in the method of reporting total executive compensation implemented in 2008. The following discussion primarily focuses on salary and non-equity incentive compensation, which are reported consistently with prior years.

- The significant decline in share price performance in December 2005 was followed by significant changes in our executive team and resulted in the hiring of the current CEO, Steven Koles, in September 2006.
- The trend in executive compensation, reflected primarily through salary and non-equity incentive payments, generally followed the trend of share price performance from 2005 to 2007. During this time, our revenues and profitability also followed a similar increasing trend.
- In 2008, revenues and profitability showed significant growth – resulting in a larger proportionate increase in executive compensation compared to prior years – however, global economic events impacted our share price, together with global equity markets. This resulted in a disconnect in the trend of executive compensation relative to the share price performance during 2008.
- In 2009, the continued impact of global recessionary conditions negatively impacted our financial performance and our share price. Similarly, executive compensation declined for all NEOs.
- In 2010, performance continued to be impacted by negative global conditions early in the year, however, by the second quarter we began to see evidence of improving conditions, which led to record revenues in the last half of 2010. Improving conditions supported varying increases in NEO base compensation, but limited incentive compensation based on corporate performance.

It is our objective to focus executive compensation on factors that build long term growth in the value of Hemisphere GPS such as revenue generation, profitability and initiatives that enhance our ability to grow profitably. While we believe that these factors should cause our share price to grow in the long term, they will not necessarily result in a consistent trend in annual non-equity executive compensation versus our share price – as that trend has a much shorter term focus.

Summary Compensation Table

The following table sets forth for the years ended December 31, 2010, 2009 and 2008 information concerning the compensation paid to the Named Executive Officers. Amounts reported in this Information Circular are in United States dollars as this is the reporting currency used in our consolidated financial statements. Steven Koles and Cameron Olson are remunerated in Canadian dollars. Unless otherwise stated, each element of compensation described in this document is converted to US dollars using the average noon day foreign exchange rate for the applicable period as reported by the Bank of Canada. For 2010, 2009 and 2008 the foreign exchange rates applied were \$1.301, \$1.1420 and \$1.0660 respectively. As the US dollar has weakened over this period, the translated compensation levels for NEOs compensated in Canadian dollars has increased moreso than the underlying Canadian dollar-denominated compensation as a result of these exchange rate changes.

Notes:

- (1) Base salaries for the NEOs at December 31, 2010 are as follows: Steven Koles Cdn\$298,500 (2009: Cdn\$298,500); Cameron Olson Cdn\$239,653 (2009: Cdn\$237,280) ; Kip Pendleton US\$217,250 (2009: US\$197,500); Michael Whitehead US\$203,683 (2009: US\$201,666); and Philip Gabriel US\$193,951 (2009: Cdn\$176,319). Salary paid to the NEOs in 2009 was reduced for certain cost reduction initiatives implemented by the Corporation effective October 1, 2010. Base salaries were restored to the aforementioned base salary levels effective January 1, 2010.
- (2) Share-based awards represent Corporation matching of half of NEO purchases of Hemisphere GPS Common Shares under the Employee Share Purchase Plan. The value is based on the amount paid by the Corporation to purchase the Common Shares on behalf of the NEO on the grant date, which is the date of the NEO purchases of the Common Shares, although such awards do not vest for one year following the NEO purchase of the Common Shares.
- (3) Share options granted to NEOs are valued based on the grant date fair value of the applicable share option grant. Fair value is determined in a manner consistent with that used in preparing the Corporation's consolidated financial statements. This approach uses the Black-Scholes option pricing model with the following weighted average assumptions for 2010: zero dividend yield; weighted average volatility of 66%; risk-free rate of 2.8%; and expected lives of 3.8 years.
- (4) Amounts reported as payable under the Incentive Plan represent the amounts payable under the Incentive Plan for performance in the year indicated, but the amounts may be paid in that year, or in the following year upon completion of the audited financial statements for such year.
- (5) Other compensation includes, where applicable, car allowances, retirement savings assistance and fitness membership reimbursements paid on behalf of the NEOs.
- (6) Mr. Pendleton joined the Corporation on July 1, 2009.

Incentive Plan Awards

Details relating to the equity and non-equity incentive plans is included in the Compensation Discussion and Analysis section of this Information Circular.

Notes:

- (1) Calculated based on the difference between the closing price of the Corporation's Common Shares on December 31, 2010 (Cdn\$1.05) and the exercise price of the options. The value is converted to US dollars at the December 31, 2010 Bank of Canada noon day rate of \$0.9946. This value is calculated based on all vested and unvested options.
- (2) These represent Corporation matching of 50% of NEO purchases of Hemisphere GPS Common Shares under the Employee Share Purchase Plan which have not vested at December 31, 2010. These awards vest one year after the NEO purchases of the Common Shares to which such Corporation-matching applies. The value is calculated based on the closing share price of the Corporation's Common Shares on December 31, 2010 (Cdn\$1.05). The value is converted to US dollars at the December 31, 2010 Bank of Canada noon day rate of \$0.9946.

The following table sets forth for each Named Executive Officer, the value of option-based awards and share-based awards which vested during the year ended December 31, 2010 and the value of non-equity incentive plan compensation earned during the year ended December 31, 2010.

| Name | Option-based awards – Value vested during the year⁽¹⁾ (\$) | Share-based awards – Value vested during the year⁽²⁾ (\$) | Non-equity incentive plan compensation – Value earned during the year (\$) |

| Kip E. Pendleton | 631 | - | - |
| Michael L. Whitehead | 889 | 4,422 | - |

Notes:

- (1) Calculated based on the difference between the closing price of the Corporation's Common Shares on the vesting date and the exercise price of the options on the vesting date. As the Corporation's share price is quoted in Canadian dollars, the value is calculated in Canadian dollars and converted to US dollars based on the average noon day foreign exchange rate for 2010, as reported by the Bank of Canada, which was \$1.0301.
- (2) Calculated based on the average price paid for the Common Shares by the Corporation during the year such Common Shares were purchased and converted to US dollars based on the average noon day foreign exchange rate for 2010, as reported by the Bank of Canada which was \$1.0301.

Pension Plan Benefits

We do not have a pension plan for our NEOs or other employees.

Termination and Change of Control Arrangements

Termination

We have entered into executive employment agreements with each of Mr. Koles, Mr. Olson, Mr. Pendleton and Mr. Gabriel. The agreements provide, *inter alia*, that if their employment is terminated for any reason, other than for just cause, they shall be entitled to certain termination payments ("**Termination Payments**"). The agreements for Mr. Koles, Mr. Pendleton and Mr. Gabriel provide for a Termination Payment equal to the one year's salary plus 15% in lieu of benefits. Mr. Olson's agreement provides for a Termination Payment equal to the product of twelve, plus one for each completed year of service, times the monthly salary, plus 15% in lieu of benefits, to a maximum of two year's salary and benefits.

Following termination, vested share options held by the NEOs on the termination date can be exercised for 10 or 30 days, depending on the date that such share options were granted. Following termination, the NEO loses the right to any unvested Common Shares purchased by Hemisphere GPS on behalf of the NEO in the Employee Share Purchase Plan, however, if termination is made by us without just cause, then the unvested Common Shares will vest immediately.

No payments to the NEOs in respect of termination have been made, accrued or became payable during 2010.

Change in Control

Mr. Koles' agreement provides that he will not voluntarily leave our employ during efforts to effect a change of control, or for six months after a change of control, unless the Board of Directors has provided written approval. In the event of a change of control situation, the agreement provides that if there is a constructive dismissal event (as such event is defined by common law, or if given a reduced title or responsibilities during a defined period following the change of control), then he may terminate the agreement within two months of such event and receive compensation equal to one times the current annual base salary plus 15% in lieu of benefits.

Furthermore, if there is a constructive dismissal event following a change of control, and he does not elect to terminate the agreement as a result of such constructive dismissal event, then he will be entitled to receive a payment equal to one times the current annual base salary on the day that is two months after the constructive dismissal event.

Mr. Olson's agreement provides that he will not voluntarily leave the employment of Hemisphere GPS during efforts to effect a change of control, or for six months after a change of control, except with the written approval of the Board of Directors.

For all NEOs, share options that are not vested will immediately vest and become exercisable upon a change of control event.

The following table contains the estimated incremental payments, payables and benefits that would arise assuming a termination date of December 31, 2010, pursuant to the terms and conditions of the executive employment agreements only.

| Name | Event | Cash Payments ⁽¹⁾⁽²⁾ (\$) | Value of Equity and Share-based awards ⁽³⁾ (\$) | Total (\$) |

| | Constructive dismissal – no termination | - | - | - |

Notes:

- (1) This table includes only the incremental amounts payable on termination and change of control that are payable by contract with the NEOs.
- (2) Amounts for NEOs compensated in Canadian dollars are converted to US dollars using the Bank of Canada noon day rate on December 31, 2010 which was \$0.9946.
- (3) The value of share options that vest upon change of control are calculated as the difference between the closing price of the Corporation's Common Shares on December 31, 2010 (Cdn\$1.05) and the exercise price of the options. The value is converted to US dollars at the December 31, 2010 Bank of Canada noon day rate of \$0.9946. This value is calculated based on unvested options. The value of Common Shares that vest on termination without cause under the Employee Share Purchase Plan is calculated based on the closing share price of the Common Shares on December 31, 2010 (Cdn\$1.05). The value is converted to US dollars at the December 31, 2010 Bank of Canada noon day rate of \$0.9946.
- (4) This scenario assumes that a constructive dismissal event occurs following a change of control and Mr. Koles elects to terminate the employment agreement within two months of such event.
- (5) This scenario assumes that a constructive dismissal event occurs following a change of control and Mr. Koles elects not to terminate the employment agreement within two months of such event.

This approach uses the Black-Scholes option pricing model with the following weighted average assumptions: zero dividend yield; weighted average volatility of 66%; risk-free rate of 2.8%; and expected lives of 3.8 years.

Directors who are also executive officers of Hemisphere GPS do not receive compensation for acting in their capacities as Directors. Directors who are not executive officers receive compensation for serving in their capacity as such as determined by the Compensation Committee.

The key elements of the compensation of Directors in 2010 are as follows:

The Board and the CEO have developed a written position description for the CEO.

- **Orientation and Continuing Education**

Briefly describe what measures the board takes to orient new directors regarding (i) the role of the board, its committees and its directors, and (ii) the nature and operation of the issuer's business.

The Corporate Governance Committee, by its terms of reference (as attached as Schedule E to this Information Circular) is responsible to develop an orientation and education program for new recruits to the Board. The committee assesses new Directors' knowledge of the Corporation's business (products, industries, technologies, competition, etc.), identifies areas where more information is necessary, and provides that information through reference materials, meetings with staff, and through other means. In addition, the Corporate Governance Committee provides new Directors with copies of the Board's mandate, the standing committees' Terms of Reference, and other documentation.

Briefly describe what measures, if any, the board takes to provide continuing education for its directors. If the board does not provide continuing education, describe how the board ensures that its directors maintain the skill and knowledge necessary to meet their obligations as directors.

Board members pursue continuing education opportunities as considered appropriate by the particular Board member. In order to ensure that the Board remains knowledgeable about relevant technologies and industries, Board members receive regular technical or other relevant presentations as part of Board meetings and otherwise as considered necessary, and tour Hemisphere GPS' facilities.

- **Ethical Business Conduct**

Disclose whether or not the board has adopted a written code for the directors, officers and employees.

The Board has adopted a written Code of Conduct ("**Code**") for all Directors, officers and employees.

If the board has adopted a written code:

- (i) **Disclose how a person or company may obtain a copy of the code**

The Code is posted on Hemisphere GPS' internal and external Internet websites, and has been filed on the System for Electronic Document Analysis and Retrieval (SEDAR).

- (ii) **Describe how the board monitors compliance with its code, or if the board does not monitor compliance, explain whether and how the board satisfies itself regarding compliance with its code**

All Hemisphere GPS Directors, officers and employees annually sign a form saying they are in compliance with the Code. The Code includes specific procedures for anyone wanting to report a perceived violation of the Code. In addition, the Corporation has a "Financial Concerns Submission Policy" that outlines those procedures and that is available to all employees and Directors. These procedures include access to an anonymous "whistle-blower hotline and website" (overseen by a third-party organization) that relays Code concerns directly to the Audit Committee. The Audit Committee has a standing or regular item on its meeting agendas to ensure that any submissions to the "whistle-blower hotline and website" are addressed promptly and thoroughly.

- (iii) **Provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial year that pertains to any conduct of a director or executive officer that constitutes a departure from the code.**

There were no material change reports filed pertaining to any departures from the Code.

Describe any steps the board takes to ensure directors exercise independent judgement in considering transactions and agreements in respect of which a director or executive officer has a material interest.

Board members and executive officers are required to declare the nature and extent of any material interest in any transactions or agreements and may not vote in relation to any such matter. In certain cases an independent committee may be formed to deliberate on such matters in the absence of the interested party.

Describe any other steps the board takes to encourage and promote a culture of ethical business conduct.

Due to the fact that Hemisphere GPS has a Code, an effective procedure for monitoring and enforcing the Code, a Board Mandate, a Board chairman position description, and committee Terms of Reference, the Board sees no need at this time for additional steps.

- **Nomination of Directors**

Describe the process by which the board identifies new candidates for board nomination.

The Board's Corporate Governance Committee is responsible to develop and maintain a list of potential candidates for Board membership when necessary, and to review, interview, and recommend nominees to the full Board. Other Board members and management may also provide recommendations for nominees. Nominees must possess general business management experience, together with specific experience in areas of strategic interest to Hemisphere GPS. Nominees must also be willing and able to devote the required time and energy to Board responsibilities, and to support the Corporation's mission and strategic objectives.

Disclose whether or not the board has a nominating committee composed entirely of independent directors. If the board does not have a nominating committee composed entirely of independent directors, describe what steps the board takes to encourage an objective nomination process.

The Board has a Corporate Governance Committee, which is responsible for nominating Directors, which is comprised of two independent Directors.

If the board has a nominating committee, describe the responsibilities, powers and operation of the nominating committee.

The Board's Corporate Governance Committee, when the need for Board nominations arises, compiles and reviews a list of potential Board members and makes recommendations to the Board.

- **Compensation**

Describe the process by which the board determines the compensation for the issuer's directors and officers.

The Compensation Committee is responsible to review Directors' and officers' compensation, and where appropriate to make recommendations to change the compensation. To make its recommendations, the Compensation Committee takes into account, among other factors, the nature and amount of compensation paid to Directors and officers of comparable publicly traded Canadian companies and the circumstances of the Corporation. The details of such comparisons are more fully described in the Executive Compensation section of this Information Circular.

Disclose whether or not the board has a compensation committee composed entirely of independent directors. If the board does not have a compensation committee composed entirely of independent directors, describe what steps the board takes to ensure an objective process for determining such compensation.

The Board has a Compensation Committee, which is comprised entirely of independent Directors.

If the board has a compensation committee, describe the responsibilities, powers and operation of the compensation committee.

The Compensation Committee is charged with the responsibility to oversee the approach of the Corporation to matters concerning Director, executive and employee compensation and, from time to time, to make recommendations to the Board of Directors with respect to such matters.

See the Compensation Committee's Terms of Reference in the attached Schedule D.

If a compensation consultant or advisor has, at any time since the beginning of the issuer's most recently completed financial year, been retained to assist in determining compensation for any of the issuer's directors and officers, disclose the identity of the consultant or advisor and briefly summarize the mandate for which they have been retained. If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.

During 2006, the Corporation engaged a third party consulting firm to assist in the development of a comprehensive compensation program that will ensure that the Corporation remains externally competitive. The program applies to all employees of the Corporation, including officers, but does not apply to Directors. The consultant provided no other services to the Corporation during the year.

The Corporation subscribes to services that compile compensation data for regions in which the Corporation operates. This data is reviewed to assist in assessing the appropriate compensation levels of the Corporation.

- **Other Board Committees**

If the board has standing committees other than the audit, compensation and nominating committees, identify the committees and describe their function.

The Board has a Corporate Governance Committee. The Committee's functions and responsibilities are outlined in the Terms of Reference attached as Schedule E to this Information Circular.

- **Assessments**

Disclose whether or not the board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe the process used for the assessments. If assessments are not regularly conducted, describe how the board satisfies itself that the board, its committees, and its individual directors are performing effectively.

The Corporate Governance Committee is responsible by its Terms of Reference for periodically assessing the effectiveness of the Board as a whole, the committees of the Board and the contribution of individual Directors. The Committee conducts an annual review through the completion of a survey by each Director. In the survey, the Directors assess their own performance and that of their colleagues. The resulting information is summarized in confidential form with the results provided to the Chairman and each Director for review.
